SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently-approved collection of information:

1. *Title:* Annual Stress Test Reporting; \$10-\$50 Billion Templates.

OMB Number: 3064-0187.

Affected Public: Insured state nonmember banks.

Frequency of Response: Annually.

Estimated Number of Respondents: 22

Estimated Number of Responses: 22

Estimated Time per Response: 469 hours

Total Annual Burden: 10,318 hours.

General Description: The FDIC DFAST 10-50 reporting form collects data through two primary schedules: (1) the Results Schedule (which includes the quantitative results of the stress tests under the baseline, adverse, and severely adverse scenarios for each quarter of the planning horizon) and (2) the Scenario Variables Schedule. In addition, respondents are required to submit a summary of the qualitative information supporting their quantitative projections. The FDIC proposes to revise the FDIC DFAST 10-50 Summary Schedule by modifying the financial as of date from September 30th to December 31st. This revision is effective for the 2016 stress test cycle (with reporting in July 2016). In addition, the FDIC proposes to clarify the FDIC DFAST 10-50 reporting form instructions to change the submission date from March 31st to July 31st, to change references to the financial “as of” date from September 30th to December 31st, and to update the line items references to the new Call Report Instructions. The FDIC does not expect that the changes to the DFAST 10-50 Summary Schedule and reporting form instructions will result in a change in burden.

Request for Comment

Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to

minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

Dated at Washington, D.C., this 17th day of February, 2016.
