TITLE: Cold Storage

OMB CONTROL NUMBER: 0535-0001

SUMMARY OF COLLECTION: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue State and national estimates of crop and livestock production, value and disposition. The monthly Cold Storage Survey provides information on national supplies of food in refrigerated storage facilities. A biennial survey of refrigerated warehouses is also conducted to provide a benchmark of the capacity available for refrigerated storage of the nation's food supply. The data will be collected under the authority of 7 U.S.C. 2204(a). This statute specifies "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain...by the collection of statistics... and shall distribute them among agriculturists."

NEED AND USE OF THE INFORMATION: USDA agencies such as the World Agricultural Outlook Board, Economic Research Service, and Agricultural Marketing Service use this information from the Cold Storage report in setting and administering government commodity programs and in supply and demand analysis. Included in the report are stocks of pork bellies, frozen orange juice concentrate, butter, and cheese which are traded on the Chicago Board of

Trade. The timing and frequency of the surveys have evolved to meet the needs of producers, facilities, agribusinesses, and government agencies.
