SUPPLEMENTARY INFORMATION:

Agenda: On June 2 and 3, 2016, the committee will discuss recent reports and epidemiologic investigations of nontuberculous mycobacteria (NTM) infections associated with the use of heater-cooler devices during cardiac surgical procedures. FDA is convening this committee to seek expert scientific and clinical opinion related to contamination of heater-cooler devices, associated patient infections, and mitigation strategies based on available scientific information. The committee will make recommendations on: (1) the effectiveness of cleaning and disinfection methods for heater-cooler devices; (2) the amount and type of premarket data and information needed to demonstrate validation of cleaning and disinfection of heater-cooler devices in support of labeling claims and technical instructions;
(3) appropriate risk mitigations to be implemented by manufacturers of heater-cooler devices and/or hospital facilities to ensure patient safety during surgical procedures where these devices are used; and (4) appropriate guidelines and/or criteria based on a risk stratification schema for notifying patients who may have already been exposed to NTM during prior cardiac surgeries. Recommendations on these issues will assist FDA in minimizing patient exposure to infections that may result from contaminated heater-cooler devices.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm. Scroll down to the appropriate advisory committee meeting link.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before May 19, 2016. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. on June 2, 2016, and between approximately 9 a.m. and 10 a.m. on June 3, 2016. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before May 11, 2016. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open
public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open
public hearing session. The contact person will notify interested persons regarding their request to
speak by May 12, 2016.
