The agenda will be published to include committee discussions and votes on the two rules mentioned above. PHMSA staff will also brief the committees on several regulatory and policy initiatives.

## **II. Committee Background**

The GPAC and LPAC are statutorily-mandated advisory committees that advise PHMSA on proposed safety standards, risk assessments, and safety policies for natural gas pipelines and for hazardous liquid pipelines. Both committees were established under the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 1) and the Pipeline Safety Law (49 U.S.C. Chap. 601). Each committee consists of 15 members—with membership evenly divided among the federal and state government, the regulated industry, and the public. The committees advise PHMSA on the technical feasibility, practicability, and cost-effectiveness of each proposed pipeline safety standard.

Issued in Washington, D.C. on May 06, 2016, under authority delegated in 49 CFR 1.97.
