ACTION: Notice of Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee and Solicitation of Nominations for Membership

SUMMARY: Pursuant to provisions of the Federal Advisory Committee Act, 5 U.S.C. App., the Department of Commerce announces the reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee (the Committee). The Committee shall advise the Secretary of Commerce regarding the development and administration of programs and policies to expand the competitiveness of U.S. exports of renewable energy and energy efficiency goods and services. The Committee's work on energy efficiency will focus on technologies, services, and platforms that provide system-level energy efficiency to electricity generation, transmission, and distribution. These include smart grid technologies and services, as well as equipment and systems that increase the resiliency of power infrastructure such as energy storage. For the

purposes of this Committee, covered goods and services will not include vehicles, feedstock for biofuels, or energy efficiency as it relates to consumer goods. Non-fossil fuels that are considered renewable fuels (e.g., liquid biofuels and pellets) are included. This notice also requests nominations for membership.

The Committee shall consist of approximately 35 members appointed by the Secretary in accordance with applicable Department of Commerce guidance and based on their ability to

carry out the objectives of the Committee. The Secretary of Commerce invites nominations to the Committee of U.S. citizens who will represent U.S. companies, U.S. trade associations, and U.S. private sector organizations with activities focused on the export competitiveness of U.S. renewable energy and energy efficiency goods and services. Members shall reflect the diversity of this sector, including in terms of entity or organization size, geographic location, and subsector represented. The Committee shall also represent the diversity of company or organizational roles in the development of renewable energy and energy efficiency projects, including, for example, project developers, technology integrators, financial institutions, and manufacturers.

Prospective applicants and nominees are strongly encouraged to review materials and information on the Committee website, including the Committee's charter, to gain an understanding of the Committee's responsibilities, matters on which the Committee will provide recommendations, and expectations for members based on the work of previous Committees: <http://export.gov/reec/reecac>

Members serve at the pleasure of the Secretary from the date of appointment to the Committee to the date on which the Committee's charter terminates. Members serve in a representative capacity presenting the views and interests of a U.S. entity or U.S. organization, as well as their particular subsector; they are, therefore, not Special Government Employees.

Members of the Committee must not be registered as foreign agents under the Foreign Agents Registration Act. No member may represent a company that is majority owned or controlled by a foreign government entity (or foreign government entities).
