SUPPLEMENTARY INFORMATION:

I. Background

NASA published a proposed rule in the Federal Register at 81 FR 13308 on March 14, 2016, to amend the NFS to remove references to NASA’s Grant and Cooperative Agreement Handbook, NPR 5800.1,

II. Discussion and Analysis

No public comments were submitted in response to the proposed rule. The proposed rule has been converted to a final rule without change.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act
A final regulatory flexibility analysis has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., and is summarized as follows:

NASA is issuing a final rule amending the NFS to remove references to the NASA Grant and Cooperative Agreement Handbook and NPR 5800.1, NASA Grant and Cooperative Agreement Handbook. No changes were made to the final rule. No public comments were received in response to the Initial Regulatory Flexibility Analysis in the proposed rule. Therefore, the proposed rule has been adopted as final. NASA does not expect this final rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., because it merely removes outdated and unnecessary grant and cooperative agreement references that should not be in the NFS. There are no new reporting requirements or recordkeeping requirements associated with this rule. In addition, there are no other alternatives that could further minimize the already negligible impact on businesses, small or large.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of OMB under the Paperwork Reduction Act (44 U.S.C. chapter 35).
