**SUPPLEMENTARY INFORMATION:** On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the *Federal Register* (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On February 29, 2016, the Michigan Department of Environmental Quality (MDEQ) submitted an application titled “Michigan Air Emission Reporting System (MAERS)” for revisions/modifications to several of its EPA-approved air programs under title 40 CFR to allow electronic reporting. EPA reviewed MDEQ’s request to revise/modify its EPA-authorized

programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Michigan's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR parts 50-52, 60-61, 63, 65 and 70, is being published in the *Federal Register*:

Part 52 - Approval and Promulgation of Implementation Plans;

Part 60 - Standards of Performance for New Stationary Sources;

Part 63 - National Emission Standards for Hazardous Air Pollutants for Source Categories; and

Part 70 - State Operating Permit Programs.

MDEQ was notified of EPA's determination to approve its application with respect to the authorized programs listed above.
