## **DEPARTMENT OF HEALTH AND HUMAN SERVICES**

Notice of Intent to Award a Single Source Non-Competing Supplement to the Residential Information Systems Project, University of Minnesota

**AGENCY:** Administration for Community Living, HHS

**SUMMARY:** The Administration for Community Living (ACL) is announcing supplemental funding for the Residential Information Systems Project (RISP) at the University of Minnesota. The RISP project collects and examines national and state by state statistics on all residential services and supports from different sources. Between 2011 and 2016 the Administration on Intellectual and Developmental Disabilities (AIDD) funded the Family Information Systems Project (FISP) to examine the supports and services provided to families with family members with disabilities residing in the family home. The FISP project has created a user-friendly website enabling the data to be easily utilized by the public. The website includes the annual reports containing data relating to services provided to families in Fiscal Year 2012, Fiscal Year 2013, Fiscal Year 2014 and Fiscal Year 2015. The website also includes the infographics, and chart builder products.

With this supplement, data from the FISP will be incorporated into the RISP and the project will be able to continue the collection and examination of the variables related to supports and services provided to families. Specific activities include: annual state by state data collection, longitudinal analyses of changes in state utilization and expenditures for children vs adults; development and dissemination of one targeted research to practice brief on FISP findings for families and other stakeholders; ongoing FISP technical assistance and webinars and continuation of web-based dissemination of FISP findings through the FISP website. In addition, the RISP project will be able to

maintain and build upon the established website.
