Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR Part 63, Subpart A), as well as for the specific requirements at 40 CFR Part 63 Subpart EE. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Magnetic tape manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart EE).

Estimated number of respondents: 6 (total).

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 3,910 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$451,000 (per year), which includes \$47,000 in both annualized capital/startup and operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in the burden and cost estimates occurred because of a change in assumption. This ICR assumes all sources will have to familiarize themselves with the regulatory requirements each year. In addition, this ICR has an increase of one response to account for the initial performance test notification.
