Needs and Uses: Section 207 of the Telecommunications Act of 1996 (“1996 Act”) directs the Commission to promulgate rules prohibiting restrictions on viewers’ ability to receive over-the-air signals by television broadcast, multichannel multipoint distribution, or direct broadcast satellite services.

In a Report and Order, Memorandum Opinion and Order and Further Notice of Proposed Rulemaking, CS Docket No. 96-83, FCC 96-328, released August 6, 1996, the Commission fully implemented Section 207 of the 1996 Act by adopting final rules for a preemption of state, local and non-governmental regulations that impair viewers ability to receive over-the-air signals. In doing so, the FCC acknowledged the necessity of allowing state, local and non-governmental entities to continue to enforce certain regulations and restrictions, such as those serving safety purposes, and therefore exempted them from its prohibition.

Also, state, local and non-governmental entities were permitted to file petitions for waivers.

On September 25, 1998, the Commission released an Order on Reconsideration, FCC 98-214, in this proceeding that further modified and clarified Section 207 rules. Among other things, the Order on Reconsideration clarified how declaratory rulings and waivers in this matter are to be served on all interested parties. If a local government seeks a declaratory ruling or a waiver, it must take steps to afford reasonable, constructive notice to residents in its jurisdiction.
(e.g., by placing notices in a local newspaper of general circulation). Certificates of service and proof of constructive notice also must be provided to the Commission with the petition.

In this regard, the petitioner should provide the Commission with a copy of the notice and an explanation of where the notice was placed and how many people the notice might reasonably have reached.

Effective January 22, 1999, FCC 98-273, the Commission amended the rules so that it applies to rental property where the renter has an exclusive use area, such as a balcony or patio.

In FCC 00-366, the Commission then further amended the rule so that it applies to customer-end antennas that receive and transmit fixed wireless signals. This amendment became effective on May 25, 2001.

FEDERAL COMMUNICATIONS COMMISSION.
