*Abstract:* Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR Part 63, Subpart A, as well as for the specific requirements at 40 CFR Part 63, Subparts GGGGG. This includes submitting initial notification reports, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

*Form Numbers:* None.

*Respondents/affected entities:* Facilities with site remediation activities.

*Respondent's obligation to respond:* Mandatory (40 CFR Part 63, Subpart GGGGG).

*Estimated number of respondents:* 286 (total).

*Frequency of response:* Initially and semiannually.

*Total estimated burden:* 140,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$13,900,000 (per year), which includes \$582,000 in annualized capital/startup and/or operation & maintenance costs.

*Changes in the Estimates:* There is an adjustment decrease in the total respondent burden hours as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The decrease in labor hours occurred because this ICR corrects a mathematical error in calculating managerial hours. The previous ICR inadvertently calculated managerial labor hours as 50% of technical labor hours, rather than 5%, for Federal Government respondents.
