*Abstract:* The Department of Education is requesting a reinstatement with change of a previously approved collection of information entitled Application for New Awards under the Ronald E. This application will be used to award new grants and collect data under the McNair program, which provides grants to institutions of higher education and combinations of such institutions to prepare low-income, first-generation college students, and students from groups underrepresented in graduate education, for doctoral study. Two of the three previously used competitive preference priorities have been removed while one remains unchanged in anticipation of the FY 2017 competition. The cost burden to the Federal Government, which was reported as \$1,155,449 in the previously approved collection, has also been updated to better reflect actual costs.
