Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background.

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "*NRC Form 314, Certification of Disposition of Material.*" The NRC hereby

informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on July 19, 2016 (81 FR 46972).

1. *The title of the information collection: NRC Form 314 Certification of Disposition of Material*

2. *OMB approval number: 3150-0028.*

3. *Type of submission: Extension*

4. *The form number if applicable: NRC Form 314*

5. *How often the collection is required or requested: NRC Form 314 is submitted by materials licensee who wishes to terminate its license. The form provides information needed by the NRC to determine whether the licensee has radioactive materials on hand which must be transferred or otherwise disposed of prior to expiration or termination of the license.*

6. *Who will be required or asked to respond: Respondents are firms, institutions, and individual holding NRC licenses to possess and use radioactive materials who do not wish who do not wish to renew those licenses.*

7. *The estimated number of annual responses: 136 responses.*

8. *The estimated number of annual respondents:* 136 respondents.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* Each form requires, on average, approximately 0.5 hours to prepare. $136 \times 0.5 \text{ hour} =$ a total annual burden for all respondents of 68 hours.

10. *Abstract:* The NRC Form 314 furnishes information to the NRC regarding transfer or other disposition of radioactive material by licensees who wish to terminate their licenses. The information is used by the NRC as part of the basis for its determination that the facility has been cleared of radioactive material before the facility is released for unrestricted use.

Dated at Rockville, Maryland, this 19th day of December 2016.

For the Nuclear Regulatory Commission.
