ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew and revise a previously approved information collection. The information collected is used to determine if applicants are medically qualified to perform the duties associated with the class of airman medical certificate sought. Section 2307 of Public Law 114-190 established a new voluntary program of physical examination and education requirements for certain pilots in command in lieu of those pilots holding a medical certificate.

Background: The Federal Aviation Administration (FAA) Extension, Safety, and Security Act of 2016 (Pub. L. 114-190) (FESSA) was enacted on July 15, 2016. Section 2307 of FESSA, medical certification of certain small aircraft pilots, directed the FAA to "issue or revise regulations to ensure that an individual may operate as pilot in command of a covered aircraft" if the pilot and aircraft meet certain prescribed conditions as outlined in FESSA. The FAA notes that the use of section 2307 by any eligible pilot is voluntary. Persons may elect to use these alternative pilot physical examination and education requirements or may continue to operate using any FAA medical certificate.

The FAA is publishing a final rule, Alternative Pilot Physical Examination and Education Requirements, to implement the provisions of section 2307 (RIN 2120-AK96).
