DEPARTMENT OF ENERGY

10 CFR Part 430

[Docket No. EERE–2012–BT–STD– 0045]

RIN 1904-AD28

Energy Conservation Program: Energy Conservation Standards for Ceiling Fans

ACTION: Final rule; delay of effective date.

SUMMARY: This document delays the effective date of a recently published final rule amending the energy conservation standards for ceiling fans.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

On January 20, 2017, the Assistant to the President and Chief of Staff (“Chief of Staff”) issued a memorandum, published in the Federal Register on January 24, 2017 (82 FR 8346), outlining the President’s plan for managing the Federal regulatory process at the outset of the new Administration. In implementation of one of the measures directed by that memorandum, the United States Department of Energy (“DOE”) hereby temporarily postpones the effective date of its final rule amending the energy conservation standards for ceiling fans published in the Federal Register on January 19, 2017. See 82 FR 6826. The January 19 rule establishes amended standards for ceiling fans that are expressed for each product class as the minimum allowable efficiency in terms of cubic feet per minute per watt (“CFM/W”), as a function of ceiling fan diameter. (The previous energy conservation standards applicable to ceiling fans were design standards prescribed in the Energy Policy and Conservation Act of 1975, as amended.) Consistent with the memorandum, DOE is temporarily postponing the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date is necessary to give DOE officials the opportunity for further review and consideration of new regulations, consistent with the Chief of Staff’s memorandum of January 20, 2017.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively,
DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing for 60 days the effective date of this regulation pursuant to the previously-noted memorandum of the Chief of Staff and is exercising no discretion in implementing this specific provision of the memorandum. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, D.C., on January 24, 2017

John T. Lucas
Acting General Counsel
