SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the ETA Quick Turnaround Surveys generic clearance. The ICR is for eight (8) to twenty (20) surveys over the next three years, with each survey being simple and relatively short (10-30 questions). The surveys will be designed on an ad hoc basis and will focus on emerging topics of pressing policy interest in order to fill critical gaps in ETA's information needs about the workforce system. Survey results will inform development of legislation, regulations, and technical assistance. The surveys could focus on the state or local level, or some combination of both, and respondents could include management, staff or leadership in state workforce agencies, local boards, American Job Centers, Employment Service offices, or other partners. This information collection has been classified as a revision, because the ETA seeks to have the surveys be available for

the variety of issues concerning the very broad spectrum of programs administered by ETA, instead of the single statute focus previously approved. The nature of the surveys will remain unchanged.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0436. The current approval is scheduled to expire on January 31, 2017; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the Federal Register on September 13, 2016 (81 FR 62923).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0436. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
