DEPARTMENT OF ENERGY

10 CFR Part 430

[Docket No. EERE–2012–BT–STD–0045]

RIN 1904-AD28

Energy Conservation Program: Energy Conservation Standards for Ceiling Fans

ACTION: Final rule; further delay of effective date.

SUMMARY: This document further delays the effective date of a recently published final rule amending the energy conservation standards for ceiling fans.

FOR FURTHER INFORMATION CONTACT:

This document is scheduled to be published in the Federal Register on 03/21/2017 and available online at https://federalregister.gov/d/2017-05477, and on FDsys.gov.
SUPPLEMENTARY INFORMATION:

On January 31, 2017, the United States Department of Energy (“DOE”) temporarily postponed the effective date of its final rule amending the energy conservation standards for ceiling fans published in the Federal Register on January 19, 2017. See 82 FR 8806. The January 31 rule temporarily postponed the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date was necessary to give the newly appointed Secretary of Energy (Secretary) the opportunity for further review and consideration of new regulations. However, the Secretary was not confirmed and did not begin work in his position until March 3, 2017. As a result, the Secretary was unable to accomplish the review and consideration during the original postponement of the effective date of the regulation establishing energy conservation standards for ceiling fans. Therefore, DOE hereby further temporarily postpones the effective date of that energy conservation standards regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this test procedure is postponed until September 30, 2017.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively,
DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary. The January 21, 2020, compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, D.C., on March 15, 2017.

John T. Lucas,
Acting General Counsel.
