Background

On December 1, 2016, the Department published the notice of initiation of the sunset

reviews of the AD *Orders*¹ on CTL plate from India, Indonesia, and Korea, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On December 8, 13, and 16, 2016, respectively, ArcelorMittal USA, Inc. (AMUSA), Nucor Corporation (Nucor), and SSAB Enterprises LLC (SSAB), (collectively, the petitioners or the domestic interested parties), notified the Department of their intent to participate within the 15-day period specified in 19 CFR 351.218(d)(1)(i).³ Each of the domestic parties claimed interested party status under section 771(9)(C) of the Act stating that they are each producers in the United States of a domestic like product.

On January 3, 2017, the Department received complete substantive responses to the *Notice of Initiation* from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁴ We received no substantive responses from respondent interested parties with respect to these sunset reviews of the orders on CTL plate from India, Indonesia, or Korea, nor was a hearing requested. As a result, pursuant to section 751(c)(3)(B) of the Act

Scope of the Orders

The products covered under the *Orders* are certain hot-rolled carbon-quality steel: (1) Universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, and of a nominal or actual thickness of not less than 4 mm, which are cut-to-length (not in coils) and without patterns in relief), of iron or non-alloy-quality steel; and (2) flat-rolled products, hot-rolled, of a nominal or actual thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are cut-to-length (not in coils). Steel products to be included in the scope of the *Orders* are of rectangular, square, circular or other shape and of rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been “worked after rolling”) -- for example, products which have been beveled or rounded at the edges. Steel products that meet the noted physical characteristics that are painted, varnished or coated with plastic or other non-metallic substances are included within the scope. Also, specifically included in the scope of the *Orders* are high strength, low alloy (HSLA) steels. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

The issues discussed in the Issues and Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margin of dumping that is likely to prevail if the *Orders* were revoked. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building.
