DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2017-0008]

Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that on January 18, 2017, the Middletown & Hummelstown Railroad Company (MIDH) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations at 49 CFR part 230, Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA-2017-0008.

Specifically, MIDH's letter requests relief from performing the 1,472 service day inspection (SDI) for No. 91, a 2-6-0 "Mogul" type steam locomotive built by the Canadian Locomotive Company in 1910 for the Canadian National Railway. MIDH's request pertains to the inspection of the boiler every 15 calendar years or 1,472 service days, as required by 49 CFR 230.17. MIDH is requesting an additional 19 calendar months before performing a 1,472 SDI. The previous SDI was completed on May 30, 2002, and expires on May 30, 2017. Granting relief will allow No. 91 an SDI period of 16 calendar years and 7 calendar months while not exceeding 1,472 service days. MIDH

operated No. 91 from 2002 to 2009. It has been stored in serviceable condition, but has not operated since 2009 due to the lack of an experienced mechanical staff. MIDH's justification for requesting relief is that No. 91 has only operated for a total of 116 service days within the 15-calendar year period.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Avenue, SE, W12-140, Washington, DC 20590.
