SUPPLEMENTARY INFORMATION:

Title: Electronic Import Inspection.

OMB Number: 0583-0159.

Expiration Date of Approval: 10/31/2017.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.). These statutes provide that FSIS is to protect the public by verifying that meat, poultry, and egg products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS is requesting a renewal of the approved information collection regarding electronic import inspection. The approval for this information collection will expire on October 31, 2017. There are no changes to the existing information collection.

FSIS requires foreign governments to submit information in addition to the foreign establishment certificate and the foreign inspection certificate in order for foreign

establishments to be permitted to import product to the United States. The additional information required with the Foreign Establishment Certificate includes: the type of operation(s) conducted at the establishment (e.g., slaughter, processing, storage, exporting warehouse); and the establishment's eligibility status (e.g., new or relisted (if previously delisted)). Additionally, slaughter and processing establishment certifications must address the species and type of product(s) produced at the establishment and the process category.

The additional information required with the Foreign Inspection Certificate includes: the species used to produce the product and the source country and foreign establishment number, if the source materials originate from a country other than the exporting country; the product's description, including the process category, the product category, and the product group; address of the consignor; address of the consignee; the name and address of the exporter; the name and address of the importer; and, any additional information the Administrator requests to determine whether the product is eligible to be imported into the U.S.

Applicants that do not file this information electronically file can continue to submit paper

applications to FSIS inspection personnel at an official import inspection establishment. The Import Inspection Application (FSIS Form 9540-1) must be provided to FSIS in advance of the presentation of the shipment at the official import inspection establishment.

FSIS also requires official import inspection establishments to develop, implement, and maintain written Sanitation Standard Operating Procedures (SSOPs), as provided in 9 CFR 416.11 through 416.17.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 22.709 minutes to provide the additional information and maintain necessary documentation.

Respondents: foreign establishments, foreign governments and import inspection establishments.

Estimated No. of Respondents: 150

Estimated No. of Annual Responses per Respondent: 530.4

Estimated Total Annual Burden on Respondents: 30,112 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400

Independence, SW, 6065, South Building, Washington, DC  
20250; (202)720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology.

Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

#### Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will

announce this Federal Register publication on-line through the FSIS Web page located at:

<http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at:

<http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.
