**Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Safe Disposition of Life-Limited Aircraft Parts**

**AGENCY:** FEDERAL AVIATION ADMINISTRATION (FAA), DOT

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew a previously approved information collection. This collection involves response to the Wendall H. Ford Investment and Reform Act for the 21st Century which requires that all persons who remove any life-limited aircraft part have a method to prevent the installation of that part after it has reached its life limit.

**DATES:** Written comments should be submitted by [**insert date 60 days after date of publication in the Federal Register**].

**ADDRESSES:** Send comments to the FAA at the following address: Ronda Thompson, Federal Aviation Administration, ASP-110, 800 Independence Ave. SW, Washington, DC 20591.

**FOR FURTHER INFORMATION CONTACT:** Ronda Thompson by e-mail at:

**SUPPLEMENTARY INFORMATION: Public comments invited:** You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

**OMB Control Number:** 2120-0665

**Title:** Safe Disposition of Life-Limited Aircraft Parts

**Form Numbers:** There are no FAA forms associated with this collection.

**Type of Review:** Renewal of an information collection

**Background:** 14 CFR Part 43 requires a record keeping system to be maintained that will aid aircraft operators in determining the status of the life-limited parts from inadvertently being installed that have reached their life limit. This action reduces the risk of life-limited parts being used beyond their life limits. This action also requires that manufacturers of life-limited parts provide marking instructions, when requested.

**Respondents:** Approximately 8,000 air carriers, repair stations, and mechanics.

**Frequency:** On occasion.

**Estimated Average Burden per Response:** 15 minutes.

**Estimated Total Annual Burden:** 104,000 hours.

Issued in Washington, DC on June 5, 2017
