SUPPLEMENTARY INFORMATION:

A. Background

On March 22, 2004, EPA issued a final rule amending the MSWLF criteria in 40 CFR 258 to allow for RD&D permits (69 FR 13242). This rule allows for variances from specified criteria for a limited period of time, to be implemented through state-issued RD&D permits. RD&D

permits are available only in states with approved MSWLF permit programs that have been modified to incorporate RD&D permit authority. On May 10, 2016, the EPA issued a revision to the regulations allowing RD&D permits to increase the number of permit renewals allowed to six, for a total permit term of up to 21 years (40 CFR 258.4).

While states are not required to incorporate this new provision, those states interested in providing RD&D permits must seek approval from EPA before issuing such permits. On January 25, 2006 Illinois received a final notice of adequacy of its RD&D permit program (71 FR 4142). On March 21, 2017, IEPA submitted a notification to EPA Region 5 seeking Federal approval of its revised RD&D requirements per the procedures in 40 CFR 239.12. Illinois' revised RD&D provisions can be found in Part 813 of the Illinois Pollution Control Board's (IPCB), Title 35: Environmental Protection Regulations, in the January 19, 2017 opinion and order of the IPCB.

B. Decision

EPA has made a determination that the Illinois RD&D permit provisions as set out in Part 813 of the IPCB's, Title 35: Environmental Protection Regulations, in the January 19, 2017 opinion and order of the Illinois Pollution Control Board comply with the Federal criteria, as set forth in 40 CFR 258.4.

Authority: This action is issued under the authority of section 2002, 4005 and 4010 (c) of the Solid Waste Disposal Act, as amended, 40 U.S.C. 6912, 6945 and 6949 (a).

Dated: May 26, 2017.
