Abstract: This demonstration study will evaluate the use of a promising messaging strategy designed to help TRIO Educational Opportunity Center (EOC) grantees meet the program's goal of increasing college enrollment. EOCs are hosted at postsecondary institutions or nonprofit organizations and generally serve low-income individuals who are 19 years and older -- most of whom are potential first-generation college-goers. The study will evaluate whether systematic text messaging can enhance EOCs' counseling services and lead to increased Free Application for Student Aid (FAFSA) completion and postsecondary education enrollment rates. Across 20 EOCs, approximately 6,000 adults will be randomly assigned to receive EOCs' typical services or to receive EOCs' typical services plus the text messaging.
