B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that

they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review titled “Licenses for Radiography and Radiation Safety Requirements for Radiographic Operations.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on March 17, 2017 (82 FR 14236).

1. *The title of the information collection:* “10 CFR Part 34, Licenses for Radiography and Radiation Safety Requirements for Radiographic Operations.”
2. *OMB approval number:* 3150-0007.
3. *Type of submission:* Extension.
4. *The form number if applicable:* N/A.
5. *How often the collection is required or requested:* Applications for new licenses and amendments may be submitted at any time (on occasion). Applications for renewal are submitted every 10 years. Reports are submitted as events occur.
6. *Who will be required or asked to respond:* Applicants for and holders of specific licenses authorizing the use of licensed radioactive material for radiography.
7. *The estimated number of annual responses:* 3,031 (141 reporting responses + 2,312 third-party disclosure responses + 578 recordkeepers).
8. *The estimated number of annual respondents:* 578 (500 Agreement State licensees plus 78 NRC licensees).

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request: 260,457 hours (2,770 reporting + 234,741 recordkeeping + 22,946 third party disclosure).*

10. *Abstract: Part 34 of title 10 of the Code of Federal Regulations (10 CFR) establishes radiation safety requirements for the use of radioactive material in industrial radiography. The information in the applications, reports, and records is used by the NRC staff to ensure that the health and safety of the public is protected and that licensee possession and use of source and byproduct material is in compliance with license and regulatory requirements.*

For the Nuclear Regulatory Commission.

David Cullison,
NRC Clearance Officer,
Office of the Chief Information Officer.
