SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Ethylene Oxide Standard information collection requirements codified in regulations 29 CFR 1910.1047. The principal information collection requirements in the Standard include conducting worker exposure monitoring, notifying workers of the exposure, implementing a written compliance program, and implementing medical surveillance of workers. In addition, the examining physician must provide specific information to ensure that workers receive a copy of their medical examination results. The employer must maintain exposure-monitoring and medical records for specific periods and provide access to these records to OSHA and National Institute for Occupational Safety and Health representatives, the affected workers and their authorized representatives, and

other designated parties. Occupational Safety and Health Act sections 2(b)(9), 6, and 8(c) authorize this information collection. *See* 29 U.S.C. 651, 655, 657(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1218-0108.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on June 30, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on April 5, 2017 (82 FR 16629).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0108. The OMB is particularly interested in comments that:
