I. Introduction

On June 30, 2017, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting the Commission to initiate an informal rulemaking proceeding to consider proposed changes to an analytical method related to periodic reports.¹ The Petition identifies the proposed analytical method changes filed in this docket as Proposal Four.

II. Proposal Four

Rationale and impact. The Postal Service states that Proposal Four would update parcel delivery cost pool proportions to reflect the increase in parcel delivery activity that has taken place since 2014. *Id.* at 6. The Postal Service states further that Proposal Four would reduce the regular delivery street time proportion by the increases of the proportions for in-receptacle parcels and deviation parcels and accountables. *Id.* Proposal Four would also allow cost pool proportions to be easily adjusted annually. *Id.* at 8. To illustrate Proposal Four's potential impact, the Postal Service provides a table for each market dominant product and for aggregate domestic competitive and international mail and services. *Id.* at 8-9.
