## POLICY JUSTIFICATION

### Taipei Economic and Cultural Representative Office (TECRO) in the United States - MK 48 Mod 6AT Heavyweight Torpedo (HWT)

Taiwan has requested a possible sale of forty-six (46) MK 48 Mod 6AT Heavyweight Torpedoes (HWT). This sale will include HWT containers, torpedo support, torpedo spare parts, publications, training, weapon system support, engineering and technical assistance. The total estimated program cost is \$250 million.

This proposed sale is consistent with United States law and policy, as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capabilities. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance and economic progress in the region.

The proposed sale will improve the recipient's capability in current and future defensive efforts. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen homeland defense. The recipient will have no difficulty absorbing this equipment into its armed forces.

There are no prime contractors associated with this case as all materials will be procured from U.S. Navy stocks. There are no known offset agreements proposed in connection with this potential sale.

It is estimated that during implementation of this proposed sale a number of U.S. Government and contractor representatives will be assigned to the recipient or travel there intermittently during the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16-69

Notice of Proposed Issuance of Letter of  
Offer Pursuant to Section 36(b)(1)  
of the Arms Export Control Act, as  
amended

Annex  
Item No vii

(vii) Sensitivity of Technology:

1. The MK 48 Heavy Weight Torpedo (HWT) has been in service in the U.S. Navy (USN) since 1972. This sale furnishes the MK 48 Mod 6 Advanced Technology (AT) version of the system. The purchaser currently does not have this weapon system in its inventory. The proposed sale consists of 46 HWTs, containers, spare and repair parts, weapons system support and integration, personnel training, training equipment, test equipment, U.S. Government and contractor engineering, technical and logistics support services and other related elements of logistical support.

a. There is no Critical Program Information associated with the MK 48 Mod 6AT HWT hardware, technical documentation or software. The highest classification of the hardware to be exported is SECRET. The highest classification of the technical manual that will be exported is CONFIDENTIAL. The technical manual is required for operation of the MK 48 Mod 6AT HWT. The highest classification of the software to be exported is SECRET. The MK 48 Mod 6AT HWT meets Anti-Tampering requirements.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives in the Policy justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to Taipei Economic and Cultural Representative Office (TECRO) in the United States.
