This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents is properly assessed. Currently, the Department of Labor is soliciting comments concerning the extension of data collection for the Evaluation of the EFSLMP. A copy of the proposed Information Collection Request (ICR) can be obtained by contacting the office listed in the addressee section of this notice.

**SUPPLEMENTARY INFORMATION:**

*I. Background:*

The proposed information collection extension described in this notice will provide ongoing data for an evaluation of the EFSLMP. EFSLMP, a cross-disability and cross-systems change initiative, provides a platform for multi-disciplinary state teams to focus on implementing an employment first (EF) approach when supporting individuals with disabilities. EFSLMP helps the state teams align policies, coordinate resources, and update service delivery models, to facilitate increased competitive integrated employment options for people with the most significant disabilities.

The purpose of this information collection is to gauge, via a Web-based survey, the effectiveness of ODEP's EFSLMP efforts to promote the implementation of EF policies and practices for persons with disabilities and to determine how well remote training and online forums facilitate the implementation of EF activities in each of the 14 participating states. This Federal Register Notice

provides the opportunity to comment on the extension of the use of the proposed data collection instruments that are used in the study:

*\*The Community of Practice (CoP) Pre/Post Survey.* Community of practice six-part webinar series where participants receive a ‘pre-‘ and a ‘post-‘ brief survey to gauge the effectiveness of the webinar series. Respondents consist of state direct-services staff and managers in disability services and workforce development.

## *II. Desired Focus of Comments:*

Currently, DOL is soliciting comments concerning the extension of data collection for the evaluation of the EFSLMP. DOL is particularly interested in comments that do the following:

- Evaluate whether the proposed collection of information is necessary for the proper performance functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s burden estimate of the proposed information collection, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (for example, permitting electronic submissions of responses).

## *III. Current Actions:*

At this time, the Department of Labor is requesting clearance for the extension of data collection to evaluate the EFSLMP via a community of practice pre/post survey.
