

BILLING CODE: 4163-19 P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

**Advisory Board on Radiation and Worker Health (ABRWH or the
Advisory Board), Subcommittee for Dose Reconstruction Reviews
(SDRR), National Institute for Occupational Safety and Health
(NIOSH)**

AGENCY: Centers for Disease Control and Prevention (CDC),
Department of Health and Human Services (HHS).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act,
the Centers for Disease Control and Prevention (CDC), announces
the following meeting for the aforementioned subcommittee. This
meeting is open to the public, but without a public comment
period. The public is welcome to submit written comments in
advance of the meeting, to the contact person below. Written
comments received in advance of the meeting will be included in
the official record of the meeting. The public is also welcome
to listen to the meeting by joining the teleconference at the
USA toll-free, dial-in number at 1-866-659-0537 and the pass
code is 9933701. The conference line has 150 ports for callers.

DATES: The meeting will be held on September 28, 2017, 10:30
a.m. - 5:00 p.m., EDT.

ADDRESSES: Audio Conference Call via FTS Conferencing. The USA
toll-free dial-in number is 1-866-659-0537 and the pass code is
9933701.

Mailstop E-20, Atlanta, Georgia 30333, Telephone (513)533-6800,
Toll Free 1(800)CDC-INFO, E-mail ocas@cdc.gov.

SUPPLEMENTARY INFORMATION:

BACKGROUND: The Advisory Board was established under the Energy
Employees Occupational Illness Compensation Program Act of 2000
to advise the President on a variety of policy and technical
functions required to implement and effectively manage the new
compensation program. Key functions of the Advisory Board

include providing advice on the development of probability of causation guidelines, which have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2016 pursuant to Executive Order 13708, and will expire on September 30, 2017.

PURPOSE: The Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee for Dose Reconstruction Reviews was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

MATTERS TO BE CONSIDERED:

The agenda for the Subcommittee meeting includes the following dose reconstruction program quality management and assurance activities: dose reconstruction cases under review from Sets 14 - 23, including the Oak Ridge sites (Y-12, K-25, Oak Ridge National Laboratory), Hanford, Feed Materials Production Center ("Fernald"), Lawrence Livermore National Laboratory, Mound Plant, Rocky Flats Plant, Nevada Test Site, Idaho National Laboratory, Savannah River Site, Brookhaven National Laboratory, Westinghouse, W.R. Grace, Uranium Mill in Monticello, Ventron Corporation, Weldon Springs Plant, and other Department of Energy and "Atomic Weapons Employer" facilities. The agenda is subject to change as priorities dictate.

The Director, Management Analysis and Services Office, has been delegated the authority to sign Federal Register notices

pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.
