Food Safety and Inspection Service

TITLE: Electronic Import Inspection

OMB CONTROL NUMBER: 0583-0159

SUMMARY OF COLLECTION: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U. S.C. 601 et. seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et. seq.), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

NEED AND USE OF THE INFORMATION: FSIS requires foreign governments to submit additional information when submitting both the foreign establishment certificate and the foreign inspection certificate to FSIS in order for foreign establishments to be permitted to import product to the United States. The information that is required with the Foreign Establishment Certificate includes: the type of operation(s) conducted at the establishment (e.g., slaughter, processing, storage, exporting warehouse); the establishment's eligibility status (e.g., new or relisted (if previously delisted)); and, slaughter and processing establishment certifications that address the species and type of product(s) produced at the establishment and the process category. Additional information that is required with the Foreign Inspection Certificate includes: the species used to produce the product and the source country and foreign establishment number; whether the source materials originate from a country other than the exporting country; the product's description, including the process category, the product

category, and the product group; the address of the consignor; the address of the consignee; the name and address of the exporter; the name and address of the importer; and, any additional information the Administrator requests to determine whether the product is eligible to be imported into the U.S. FSIS also requires official import inspection establishments to develop, implement, and maintain written Sanitation Standard Operating Procedures (SSOPs), as provided in 9 CFR 416.11 through 416.17. The Import Inspection Application (FSIS Form 9540-1) is available to applicants that do not file this information electronically. To conduct the information collection less frequently would inhibit the ability of FSIS to ensure that imported products are safe, wholesome and not adulterated.
