**SUPPLEMENTARY INFORMATION:**

**BACKGROUND:** The Advisory Board was established under the  
Energy Employees Occupational Illness Compensation Program Act  
of 2000 to advise the President on a variety of policy and  
technical functions required to implement and effectively manage  
the new compensation program. Key functions of the Advisory

Board include providing advice on the development of probability of causation guidelines which have been promulgated by the Department of Health and Human Services (HHS) as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2016 pursuant to Executive Order 13708, and will expire on September 30, 2017.

**PURPOSE:** This Advisory Board is charged with a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

**MATTERS TO BE CONSIDERED:** The agenda will include discussions on: Final Vote Counts from the August ABRWH Meeting for Feeds Material Production Center SEC petition (Fernald, OH), Idaho National Laboratory SEC petition (Scoville, ID), and Grand Junction Facilities SEC petition (Grand Junction, CO); Savannah River Site SEC Petition (Aiken, SC); Work Group and Subcommittee Reports; Update on the Status of SEC Petitions; Plans for the December 2017 Advisory Board Meeting; and Advisory Board Correspondence. Agenda items are subject to change as priorities dictate.

The Director, Management Analysis and Services Office, has been delegated the authority to sign Federal Register notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.
