Abstract: The EPA is required under section 183(e) of the Clean Air Act (CAA) to regulate volatile organic compound (VOC) emissions from the use of consumer and commercial products. Pursuant to CAA section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Architectural and industrial maintenance coatings are included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart D. The information collection includes initial reports and periodic recordkeeping necessary for the EPA to ensure compliance with federal standards for VOC in architectural coatings. Respondents are manufacturers, distributors, and importers of architectural coatings. Responses to the collection are mandatory under 40 CFR part 59, subpart D - National Volatile Organic Compound Emission Standards for Architectural Coatings. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the agency policies set forth in 40 CFR part 2, subpart B - Confidentiality of Business Information.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action as respondents are manufacturers, distributors, or importers of architectural and industrial maintenance coatings and coating components for sale or distribution in the United States, including the District of Columbia and all United States territories.

Respondent's obligation to respond: Mandatory under 40 CFR part 59, subpart D - National Volatile Organic Compound Emission Standards for Architectural Coatings.

Estimated number of respondents: 500 (total).

Frequency of response: On occasion.

Total estimated burden: 14,436 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,377,634 (per year). There are no annualized capital or operation and maintenance costs.

Changes in Estimates: This notice reflects differences in the total estimated respondent burden compared with the ICR currently approved by OMB. Specifically, the total estimated respondent burden hours have changed from 14,661 to 14,436 and the total estimated respondent burden cost has changed from \$1,261,526 to \$1,377,634, which is a reflection of a mathematical error that was identified during the development of this renewal. The individual elements that are compiled to reflect total respondent burden hours and cost have not changed since the last renewal, we're only correcting the math error for the total estimated burden.

Dated: October 10, 2017.

Sector Policies and Programs Division.
