**SUPPLEMENTARY INFORMATION:** On February 24, 2017, the President signed Executive Order (E.O.) 13777, "Enforcing the Regulatory Reform Agenda," which established a Federal policy "to alleviate unnecessary regulatory burdens" on the American people.

Section 3(a) of the E.O. directs Federal agencies to establish a Regulatory Reform Task Force (Task Force). One of the duties of the Task Force is to evaluate existing regulations and "make recommendations to the agency head regarding their repeal,

replacement, or modification.” The E.O. further asks that each Task Force “attempt to identify regulations that:

(i) Eliminate jobs, or inhibit job creation; (ii) are outdated, unnecessary, or ineffective; (iii) impose costs that exceed benefits; (iv) create a serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; (v) are inconsistent with the requirements of section 515 of the Treasury and General Government Appropriation Act, 2001 (44 U.S.C. 3516 note), or the guidance issued pursuant to that provision in particular those regulations that rely in whole or in part on data, information, or methods that are not publicly available or that are insufficiently transparent to meet the standard of reproducibility; or (vi) derive from or implement Executive Orders or other Presidential directives that have been subsequently rescinded or substantially modified.”

Section 3(e) of the E.O. 13777 calls on the Task Force to “seek input and other assistance, as permitted by law, from entities significantly affected by Federal regulations, including State, local, and tribal governments, small businesses, consumers, non-governmental organizations, trade associations” on regulations that meet some or all of the criteria as described in this document. Through this request for comments, DoD is soliciting such input from the public to inform evaluation of its existing regulations by the primary DoD

Regulatory Reform Task Force. Please do not provide comments in response to this document on the Defense Federal Acquisition Regulation Supplement, the Army Corps of Engineers regulations, or the Defense Health Agency TRICARE regulation as separate documents have been published to solicit comments on the regulations being reviewed by the DoD Regulatory Reform Task Force Subgroups. Although DoD will not respond to each individual comment, DoD may follow-up with respondents to clarify comments. DoD values public feedback and will consider all input that it receives.

Dated: October 17, 2017.

Aaron Siegel,  
Alternate OSD Federal Register Liaison Officer,  
Department of Defense.
