**SUPPLEMENTARY INFORMATION:** In the *Federal Register* of July 31, 2017 (82 FR 35532), FDA published a notice announcing the public workshop entitled "Cardiac Troponin Assays; Public Workshop; Request for Comments" with a 120-day comment period to request comments.

The Agency has received requests for a 30-day extension of the comment period for the public workshop. The request conveyed concern that the current 120-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the public workshop.

FDA has considered the request and is extending the comment period for the public workshop for 30 days, until December 28, 2017. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments.

Dated: November 13, 2017.

*Associate Commissioner for Policy.*
