II. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Amendment

In response to concerns raised in the comments, the MSRB is proposing to amend proposed paragraph Rule G-34(a)(i)(F) of the proposed rule change to require dealers (and municipal advisors in a competitive sale) seeking to rely on the principles-based exception to reasonably believe the purchaser’s present intent is to hold the municipal securities to maturity

“or earlier redemption or mandatory tender.”<sup>7</sup> The MSRB believes the proposed rule change should be amended to more accurately reflect the terms of direct purchase transactions including the potential for earlier redemption or mandatory tender.<sup>8</sup> The MSRB is proposing this same amendment to the proposed principles-based exception for dealers from the depository eligibility requirements of the rule set forth in proposed subparagraph Rule G-34(a)(ii)(A)(3) for consistency.<sup>9</sup> The MSRB stated that this provision would clarify that the depository eligibility requirements of Rule G-34(a)(ii)(A) do not apply to municipal securities included in the principles-based exception.<sup>10</sup>

In response to concerns raised in the comments, the MSRB also is proposing amending the proposed rule change to expand the principles-based exception in proposed paragraph Rule G-34(a)(i)(F) to include cases where a municipal entity purchases the municipal securities with funds that are at least in part proceeds of the purchasing entity’s issue of municipal obligations, or the municipal securities being purchased are used to fully or partially secure or pay the purchasing entity’s issue of municipal obligations.<sup>11</sup> The MSRB believes that certain sales of municipal securities to municipal entities should be excepted from the CUSIP number requirements for the same policy reasons underlying the principles-based exception for purchases by banks and their non-dealer control affiliates.<sup>12</sup> In particular, the MSRB believes

that where a municipal entity is purchasing municipal securities using funds that are at least in part proceeds of that purchasing entity's issuance of other municipal obligations, or where the municipal securities being purchased are used to fully or partially secure or pay the purchasing entity's issue of municipal obligations, there is a strong expectation that the purchase of the underlying municipal securities is intended to be held and not traded in the secondary market.<sup>13</sup> As with the exception for dealers (or municipal advisors in a competitive sale) engaging in direct purchase transactions of new issue municipal securities to banks, the MSRB believes that requiring a CUSIP number in these scenarios would not serve the purposes of Rule G-34 to, among other things, improve efficiencies in the processing, receiving, delivering and safekeeping of municipal securities.<sup>14</sup> The MSRB also believes that, just as in the case of purchases by banks and their non-dealer control affiliates, for a dealer (or municipal advisor in a competitive sale) to rely on the principles-based exception in this instance, it would be required to have a reasonable belief (e.g., by obtaining a written representation) that the purchasing municipal entity has the present intent to hold the municipal securities to maturity or earlier redemption or mandatory tender.<sup>15</sup> The MSRB is also proposing this same amendment to the principles-based exception for dealers from the depository eligibility requirements of the rule set forth in subparagraph Rule G-34(a)(ii)(A).<sup>16</sup>

In response to comments that the principles-based exception should apply to all sales of municipal securities from one municipal entity to another where a dealer (or municipal advisor in

a competitive sale) is engaged, the MSRB stated that it disagrees.<sup>17</sup> The MSRB stated that the principles-based exception is meant to facilitate financings by permitting the underwriting of new issue municipal securities by dealers (or advising by municipal advisors in a competitive sale) without requiring application be made for a CUSIP number where such new issues are not intended to trade in the secondary market.<sup>18</sup> However, the MSRB stated that it understands that a municipal entity purchasing municipal securities for investment purposes may find itself in need of liquidity and thus may look to resell those municipal securities into the secondary market.<sup>19</sup> In this instance, the MSRB stated, the holder of the municipal securities may find itself unable to readily resell the municipal securities because there is no CUSIP number and, based on discussions with industry participants, the MSRB stated that it understands there is also no established process for obtaining a CUSIP number at that late stage for secondary market trading.<sup>20</sup> The MSRB believes that by applying for the CUSIP number on the new issue up front, the dealer (or municipal advisor in a competitive sale) avoids these potential problems and ensures that this important aspect needed for secondary market trading is in place.<sup>21</sup> As a result, the MSRB stated that it does not believe the principles-based exception should be expanded to create a generalized private placement exception for all sales of municipal securities to another

municipal entity where a dealer (or a municipal advisor in a competitive sale) is engaged, but rather, should be limited as set forth above.<sup>22</sup>

The MSRB is proposing to make the proposed rule change effective six months after Commission approval and is requesting accelerated approval of Amendment No. 1.<sup>23</sup> The MSRB believes the Commission has good cause, pursuant to Section 19(b)(2) of the Act, for granting accelerated approval of Amendment No. 1<sup>24</sup>. The MSRB believes that the only substantive change to the proposed rule change is responsive to commenters and expands the application of the previously proposed principles-based exception to include sales of new issue municipal securities to municipal entities that are purchasing the underlying municipal securities with funds that are at least in part proceeds of the purchasing entity's issue of municipal obligations, or the municipal securities being purchased are used to fully or partially secure or pay the purchasing entity's issue of municipal obligations.<sup>25</sup> The MSRB believes that the other amendment to the proposed rule change merely clarifies that in a direct purchase transaction there may be a redemption or mandatory tender that occurs prior to the municipal security's maturity.<sup>26</sup> The MSRB also stated that, in light of one of the purposes of the principles-based exception in the proposed rule change - to allow dealers and municipal advisors to provide services without

inhibiting their issuer clients' access to certain financings - the revisions are consistent with the proposed rule change and are unlikely to be controversial.<sup>27</sup>
