Background: The Clean Fuels Grant Program was developed to assist non-attainment and maintenance areas in achieving or maintaining the National Ambient Air Quality Standards for ozone and carbon monoxide (CO). The program also supported emerging clean fuel and advanced propulsion technologies for transit buses and markets for those technologies. The Clean Fuels Grant Program was repealed under the Moving Ahead for Progress in the 21st Century Act (MAP-21). However, funds previously authorized for programs repealed by MAP-21 remain available for their originally authorized purposes until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated.

Estimated Number of Annual Respondents: 17

Estimated Total Annual Burden: 68 hours
