Abstract: The Secretary of the US Department of Education is authorized under Sec.487A(b) to periodically select a limited number of institutions for voluntary participation as experimental sites under the Experimental Sites Initiatives (ESI) to provide recommendations on the impact and effectiveness of proposed regulations or new management initiatives. The Department approved nine experiments to test ways to address federal objectives and meet the needs of financial aid administrators and federal financial aid recipients. Under the experiments, institutions are given the flexibility to test alternatives to existing requirements so that the Department can analyze the data obtained from participating institutions to validate current practices or to obtain information supportive of regulatory changes or recommendations for legislative change. The collection of this data and the results of these experiments will help the Department in its continuing efforts to improve Title IV program administration.
