SUPPLEMENTARY INFORMATION:

## Background

The Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCMAS is responsible for defining the criteria appropriate to Codex Methods of Analysis and Sampling; serving as a coordinating body for Codex with other international groups working in methods of analysis and sampling and quality assurance systems for laboratories; specifying, on the basis of final recommendations submitted to it by other bodies, referred to above, reference methods of analysis and sampling appropriate to Codex Standards which are generally applicable to a number of foods; considering, amending, and if necessary endorsing, as appropriate, methods of analysis and sampling proposed by Codex (Commodity) Committees, except that methods of analysis and sampling for residues of pesticides or

veterinary drugs in food, and the assessment of microbiological quality and safety on food, and the assessment of specifications for food additives, do not fall within the terms of reference of this Committee); elaborating sampling plans and procedures, as required; considering specific sampling and analysis problems submitted to it by the Commission or any of its Committees; defining procedures, protocols, guidelines, or related texts for the assessment of food laboratory proficiency, as well as quality assurance systems for laboratories.

The CCMAS is hosted by Hungary and the meeting is attended by the United States as a member country of Codex.

Issues to be discussed at the Public Meeting

The following items on the Agenda for the 39<sup>th</sup> Session of the CCMAS will be discussed during the public meeting:

- Matters Referred to the Committee by the Codex Alimentarius Commission and Other Subsidiary Bodies;
- Endorsement of Methods of Analysis Provisions and Sampling Plans in Codex Standards;
- Revision of the Recommended Methods of Codex Stan 234/review and update of Codex Stan 234;

- Criteria for endorsement of biological methods used to detect chemicals of concern;
- Proposal to amend the Guidelines on Measurement Uncertainty;
- Proposal to amend the General Guidelines on Sampling
- Report of an Inter-Agency Meeting on Methods of Analysis; and
- Other Business and Future Work.

Each issue listed will be fully described in documents distributed, or to be distributed, by the Secretariat before to the Committee Meeting. Members of the public may access or request copies of these documents (see ADDRESSES).

#### Public Meeting

At the April 6, 2018, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 39<sup>th</sup> Session of the CCMAS, Gregory Noonan (see ADDRESSES). Written comments should state that they relate to activities of the 39<sup>th</sup> Session of the CCMAS.

### Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at:

<http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions

themselves, and have the option to password protect their accounts.
