

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Monitoring Programs for Vessels in the Pacific Coast Groundfish Fishery.

OMB Control Number: 0648-0500.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 268.

Average Hours Per Response: For providers: 15 minutes for observer training/briefing/debriefing registration, notification of observer physical examination, observer status reports, other reports on observer harassment, safety concerns, or performance problems, catch monitor status reports, and other catch monitor reports on harassment, prohibited actions, illness or injury, or performance problems; 5 minutes for observer safety checklist submission to NMFS, observer provider contracts, observer information materials, catch monitor provider contracts, and catch monitor informational materials; 10 minutes for certificate of insurance; 7

minutes for catch monitor training/briefing registration, notification of catch monitor physical examination, and catch monitor debriefing registration. For vessels: 10 minutes for fishing departure reports and cease-fishing reports.

Burden Hours: 619.

Needs and Uses: In 2011, NMFS mandated observer requirements for the West Coast groundfish trawl catch shares program. For all fishery sectors, observers must be obtained through third-party observer provider companies operating under permits issued by NMFS. The regulations at §§ 660.140 (h), 660.150 (j), 660.160 (g), specify observer coverage requirements for trawl vessels and define the responsibilities for observer providers, including reporting requirements. Regulations at § 660.140 (i) specify requirements for catch monitor coverage for first receivers. Data collected by observers are used by NMFS to estimate total landed catch and discards, monitor the attainment of annual groundfish allocations, estimate catch rates of prohibited species, and as a component in stock assessments. These data are necessary to comply with the Magnuson-Stevens Act requirements to prevent overfishing. In addition, observer data is used to assess fishing related mortality of protected and endangered species.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, weekly and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: April 5, 2018.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE: 3510-22-S.
