SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for a new information collection.

The Northwest Fisheries Science Center will conduct a cost and earnings survey of active marine charter fishing vessel companies in Washington and Oregon. The data collected will be used by the National Marine Fisheries Service (NMFS) to address statutory and regulatory mandates to determine the quantity and distribution of net benefits derived from living marine resources as well as to predict the economic impacts from proposed management options on charter fishing businesses, shore side industries, and fishing communities. In particular, these economic data collection programs contribute to legally mandated analyses required under the Magnuson-Stevens Fishery Conservation and Management Act (MFCMS), the National Environmental Policy Act (NEPA), the Regulatory Flexibility Act (RFA), and Executive Order 12866 (E.O. 12866).

II. Method of Collection

An initial screening interview will be completed via telephone, and active marine charter vessels will receive a subsequent mixed-mode (telephone, mail, and in-person) survey.
