SUPPLEMENTARY INFORMATION:

Under the provisions of Title 49, U.S.C. 47153(c), and 47107(h)(2), the FAA is considering a proposal from the Airport Director, City of Arlington, to change a portion of

the Arlington Municipal Airport from aeronautical use to non-aeronautical use. The proposal consists of approximately 52,000 square feet on the west side of the airport adjacent to 51st Avenue, Northeast.

The property consists of two oddly shaped triangular section of land that are not large enough to support construction of an aircraft hangar or ramp. It is currently an unused parking area. The airport is proposing an Airport Observation Area for aviation educational purposes. The airport will continue to own the property so there will be no proceeds associated with this release from a land use provision. The FAA concurs that the parcels are no longer needed for aeronautical purposes. The proposed use of this property is compatible with other airport operations in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in Federal Register on February 16, 1999.
