SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Safe + Sound Campaign information collection. The OSHA established the Safe + Sound Campaign as a voluntary effort to support the implementation of safety and health programs in businesses throughout the United States. The Campaign includes period activities and events, ranging from regular email updates to quarterly national webinars to local meetings to an annual national stand down, designed to increase overall employer and employee awareness and understanding of safety and health programs and promote employer adoption of these programs. To gain information needed to support this effort, the OSHA is proposing to survey, and in some cases interview, those participating in the Campaign activities. The goal of the information collection is to understand and respond to the needs of participants and publicly highlight outcomes to enhance the effectiveness of the Campaign. Occupation Safety and Health Act of 1970 section 21 authorizes this information collection. *See* 29 U.S.C. 670.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the *Federal Register* on December 12, 2017 (82 FR 58448).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201804-1218-001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g.,
permitting electronic submission of responses.
