**Subsistence Management Regulations for Public Lands in Alaska—Applicability and  
Scope; Tongass National Forest Submerged Lands**

**AGENCIES:** Forest Service, Agriculture; Fish and Wildlife Service, Interior.

**ACTION:** Final rule.

**SUMMARY:** The U.S. District Court for Alaska in its October 17, 2011, order in *Peratrovich et al. v. United States and the State of Alaska*, 3:92-cv-0734-HRH (D. Alaska), enjoined the United States “to promptly initiate regulatory proceedings for the purpose of implementing the subsistence provisions in Title VIII of the Alaska National Interest Lands Conservation Act

(ANILCA) with respect to submerged public lands within Tongass National Forest” and directed entry of judgment. To comply with the order, the Federal Subsistence Board (Board) initiated a regulatory proceeding to identify those submerged lands within the Tongass National Forest that did not pass to the State of Alaska at statehood and, therefore, remain Federal public lands subject to the subsistence provisions of ANILCA. Following the Court’s decision, the Bureau of Land Management (BLM) and the USDA–Forest Service (USDA–FS) started a review of hundreds of potential pre-statehood (January 3, 1959) withdrawals in the marine waters of the Tongass National Forest. In April and October of 2015, BLM submitted initial lists of submerged public lands to the Board. This rule adds those submerged parcels to the subsistence regulations to ensure compliance with the Court order. Additional listings will be published as BLM and the USDA–FS continue their review of pre-statehood withdrawals.

**DATES:** This rule is effective [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

**ADDRESSES:** The Board meeting transcripts are available for review at the Office of Subsistence Management, 1011 East Tudor Road, Mail Stop 121, Anchorage, AK 99503, or on the Office of Subsistence Management website (<https://www.doi.gov/subsistence>).

**FOR FURTHER INFORMATION CONTACT:** Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Attention: Eugene R. Peltola, Jr., Office of Subsistence Management; (907) 786–3888 or [subsistence@fws.gov](mailto:subsistence@fws.gov). For questions specific to National Forest System lands, contact Thomas Whitford, Regional Subsistence Program Leader, USDA, Forest Service, Alaska Region; (907) 743–9461 or [twhitford@fs.fed.us](mailto:twhitford@fs.fed.us).

**SUPPLEMENTARY INFORMATION:**

## **Background**

Under Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126), the Secretary of the Interior and the Secretary of Agriculture (Secretaries) jointly implement the Federal Subsistence Management Program. This program provides a preference for take of fish and wildlife resources for subsistence uses on Federal public lands and waters in Alaska. The Secretaries published temporary regulations to carry out this program in the *Federal Register* on June 29, 1990 (55 FR 27114), and published final regulations in the *Federal Register* on May 29, 1992 (57 FR 22940). The Program has subsequently amended these regulations a number of times. Because this program is a joint effort between Interior and Agriculture, these regulations are located in two titles of the Code of Federal Regulations (CFR): Title 36, “Parks, Forests, and Public Property,” and Title 50, “Wildlife and Fisheries,” at 36 CFR 242.1–242.28 and 50 CFR 100.1–100.28, respectively. The regulations contain subparts as follows: Subpart A, General Provisions; Subpart B, Program Structure; Subpart C, Board Determinations; and Subpart D, Subsistence Taking of Fish and Wildlife.

Consistent with subpart B of these regulations, the Secretaries established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board comprises:

- A Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture;
- The Alaska Regional Director, U.S. Fish and Wildlife Service;
- The Alaska Regional Director, National Park Service;
- The Alaska State Director, Bureau of Land Management;

- The Alaska Regional Director, Bureau of Indian Affairs;
- The Alaska Regional Forester, USDA Forest Service; and
- Two public members appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture.

Through the Board, these agencies participate in the development of regulations for subparts C and D, which, among other things, set forth program eligibility and specific harvest seasons and limits.

In administering the program, the Secretaries divided Alaska into 10 subsistence resource regions, each of which is represented by a Federal Subsistence Regional Advisory Council (Council). The Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Federal public lands in Alaska. The Council members represent varied geographical, cultural, and user interests within each region.

### **Jurisdictional Background and Perspective**

The *Peratrovich* case dates back to 1992 and has a long and involved procedural history. The plaintiffs in that litigation raised the question of which marine waters in the Tongass National Forest, if any, are subject to the jurisdiction of the Federal Subsistence Management Program. In its May 31, 2011, order, the U.S. District Court for Alaska (Court) stated that “it is the duty of the Secretaries [Agriculture & Interior] to identify any submerged lands (and the marine waters overlying them) within the Tongass National Forest to which the United States holds title.” It also stated that, if such title exists, it “creates an interest in [the overlying] waters sufficient to make those marine waters public lands for purposes of [the subsistence provisions]

of ANILCA.”

Most of the marine waters within the Tongass National Forest were not initially identified in the regulations as public lands subject to the subsistence priority based upon a determination that the submerged lands were State lands, and later through reliance upon a disclaimer of interest filed by the United States in *Alaska v. United States*, No. 128 Orig., 546 U.S. 413 (2006). In that case, the State of Alaska had sought to quiet title to all lands underlying marine waters in southeast Alaska, which includes most of the Tongass National Forest. Ultimately, the United States disclaimed ownership to most of the submerged lands in the Tongass National Forest. The Supreme Court accepted the disclaimer by the United States to title to the marine waters within the Tongass National Forest, excepting from that disclaimer several classes of submerged public lands that generally involve small tracts. *Alaska v. United States*, 546 U.S. at 415.

When the United States took over the subsistence program in Alaska in 1990, the Departments of the Interior and Agriculture stated in response to comments on the scope of the program during promulgation of the interim regulations that “the United States generally does not hold title to navigable waters and thus navigable waters generally are not included within the definition of public lands” (55 FR 27115; June 29, 1990). That position was changed in 1999 when the subsistence priority was extended to waters subject to a Federal reserved water right following the *Katie John* litigation. The Board identified certain submerged marine lands that did not pass to the State and, therefore, where the subsistence priority applied. However, the Board did not attempt to identify each and every small parcel of submerged public lands and thereby marine water possibly subject to the Federal Subsistence Management Program because of the potentially overwhelming administrative burden. Instead the Board invited the public to

petition to have submerged marine lands included. Over the years, several small areas of submerged marine lands in the Tongass National Forest have been identified as public lands subject to the subsistence priority.

In its May 31, 2011, order, the Court stated that the petition process was not sufficient and found that “concerns about costs and management problems simply cannot trump the congressional policy that the subsistence lifestyle of rural Alaskans be preserved as to public lands.” The Court acknowledged in its order that inventorying all these lands could be an expensive undertaking, but that it is a burden “necessitated by the ‘complicated regulatory scheme’ which has resulted from the inability of the State of Alaska to implement Title VIII of ANILCA.” The Court then “enjoined” the United States “to promptly initiate regulatory proceedings for the purpose of implementing the subsistence provisions in Title VIII of ANILCA with respect to submerged public lands within Tongass National Forest” and directed entry of judgment.

The BLM and USDA–FS started a time- and resource-consuming review of hundreds of potential pre-statehood (January 3, 1959) withdrawals in the marine waters of the Tongass National Forest. Both agencies are reviewing their records to identify dock sites, log transfer sites, and other areas that may not have passed to the State at statehood. The review process is ongoing and expected to take quite some time.

### **Current Rule**

The Departments published a proposed rule on June 8, 2016 (81 FR 36836), to amend the applicability and scope section of subpart A of 36 CFR part 242 and 50 CFR part 100. The

proposed rule opened a comment period, which closed on August 8, 2016, and also announced public meetings to be held in several different locations throughout the state between September 28 and November 2, 2016. The Departments advertised the proposed rule by mail, email, webpage, social media, radio, and newspaper, and comments were submitted via *www.regulations.gov* to Docket No. FWS–R7–SM–2015–0159. During that period, the Councils met and, in addition to other Council business, received comments from the public and developed recommendations to the Board. The Councils had an opportunity to review the proposed rule and make recommendations for the final rule as described in more detail below.

The Board met via a public teleconference on May 25, 2017. All briefings and documents presented to the Board were available to the public on the Program’s webpage and was advertised by mail, email, webpage, social media, radio, and newspaper. After a briefing and deliberation the Board decided on the following recommendation to the Secretaries: “The Federal Subsistence Board recommends to the Secretaries that the lands listed in the proposed rule of June 8, 2016 (81 FR 36836) be included in the Subsistence Management Regulations for Public Lands in Alaska (36 CFR 242 and 50 CFR 100) for the purpose of implementing the subsistence provisions in Title VIII of the Alaska National Interest Lands Conservation Act.”

These final regulations reflect the Board’s recommendation to the Secretaries after review and consideration of Council recommendations, Tribal and Alaska Native corporation consultations, and public comments. The public received extensive opportunity to review and comment on all changes.

### **Summary of Comments Received and Responses**

The Board received one public comment from the State of Alaska. They did not object to

the new listings, however they did claim ownership over the Makhnati Island submerged lands. We conferred with the Bureau of Land Management regarding the scope of patents 50-68-0194 and 50-90-0276. Neither of the patents includes the submerged lands that are the subject of this rule. Specifically, patent number 50-68-0194 includes Lot 82 of U.S. Survey 1763, which encompasses the upland area of Makhnati Island. However, the patent does not include either the adjacent submerged lands or the fill lands that connect Makhnati Island to the rest of the chain of islands. Similarly, patent 50-90-0267 includes lands surveyed on Japonski Island in U.S. Survey 1496, but it does not grant ownership to the State of any adjacent submerged lands.

The Southeast Alaska Regional Advisory Council had no objections to these lands coming under Federal subsistence jurisdiction. They did comment that they felt they could not offer constructive discussion or provide a valuable recommendation; they addressed the desire for maps to be produced on each of these parcels, asked if the lands were aids to navigation, were the lands fully or partially submerged, and if there was a Federal interest in these lands.

Responses will have to be researched since it was not provided in the listings provided by BLM. The North Slope and Yukon-Kuskokwim Regional Advisory Councils deferred to the Southeast Council. The Northwest Arctic Regional Advisory Council approved as written in the proposed rule. The Kodiak, Southcentral Alaska, Eastern Interior Alaska, Seward Peninsula, and Bristol Bay Regional Advisory Councils had no comments and took no action.

Tribal consultation was offered statewide. No tribal entity requested specific consultation and no comments were offered via correspondence, during public hearings, or during consultations on different issues.

Because this rule concerns public lands managed by an agency or agencies in both the

Departments of Agriculture and the Interior, identical text will be incorporated into 36 CFR part 242 and 50 CFR part 100.

## **Conformance with Statutory and Regulatory Authorities**

### *Administrative Procedure Act Compliance*

The Board has provided extensive opportunity for public input and involvement in compliance with Administrative Procedure Act requirements, including publishing a proposed rule in the *Federal Register*, participation in multiple Council meetings, additional public review and comment on all proposals for regulatory change, and opportunity for additional public comment during the Board meeting prior to deliberation. Additionally, an administrative mechanism exists (and has been used by the public) to request reconsideration of the Board's decision on any particular proposal for regulatory change (36 CFR 242.20 and 50 CFR 100.20). Therefore, the Board believes that sufficient public notice and opportunity for involvement have been given to affected persons regarding Board decisions.

In the more than 25 years that the Program has been operating, no benefit to the public has been demonstrated by delaying the effective date of the subsistence regulations. A lapse in regulatory control could affect the continued viability of fish or wildlife populations and future subsistence opportunities for rural Alaskans, and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(d)(3) to make this rule effective upon the date set forth in **DATES** to ensure continued operation of the subsistence program.

*National Environmental Policy Act Compliance*

A Draft Environmental Impact Statement that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. The Final Environmental Impact Statement (FEIS) was published on February 28, 1992. The Record of Decision (ROD) on Subsistence Management for Federal Public Lands in Alaska was signed April 6, 1992. The selected alternative in the FEIS (Alternative IV) defined the administrative framework of an annual regulatory cycle for subsistence regulations.

The following *Federal Register* documents pertain to this rulemaking:

<b>Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C: <i>Federal Register</i> Documents Pertaining to the Final Rule</b>			
<i>Federal Register</i> citation	Date of publication	Category	Details
57 FR 22940	May 29, 1992	Final Rule	“Subsistence Management Regulations for Public Lands in Alaska; Final Rule” was published in the <i>Federal Register</i> .
64 FR 1276	January 8, 1999	Final Rule	Amended the regulations to include subsistence activities occurring on inland navigable waters in which the United States has a reserved water right and to identify specific Federal land units where reserved water rights exist. Extended the Federal Subsistence Board's management to all Federal lands selected under the Alaska Native Claims Settlement Act and the Alaska Statehood Act and situated within the boundaries of a Conservation System Unit, National Recreation Area, National Conservation Area, or any new national forest or forest addition, until conveyed to the State of Alaska or to an Alaska Native Corporation. Specified and clarified the Secretaries' authority to determine when hunting, fishing, or trapping activities taking place in Alaska off the public lands interfere with the subsistence priority.
66 FR 31533	June 12, 2001	Interim Rule	Expanded the authority that the Federal Subsistence Board may delegate to agency field

			officials and clarified the procedures for enacting emergency or temporary restrictions, closures, or openings.
67 FR 30559	May 7, 2002	Final Rule	Amended the operating regulations in response to comments on the June 12, 2001, interim rule. Also corrected some inadvertent errors and oversights of previous rules.
68 FR 7703	February 18, 2003	Direct Final Rule	Clarified how old a person must be to receive certain subsistence use permits and removed the requirement that Regional Advisory Councils must have an odd number of members.
68 FR 23035	April 30, 2003	Affirmation of Direct Final Rule	Because no adverse comments were received on the direct final rule (67 FR 30559), the direct final rule was adopted.
69 FR 60957	October 14, 2004	Final Rule	Clarified the membership qualifications for Regional Advisory Council membership and relocated the definition of “regulatory year” from subpart A to subpart D of the regulations.
70 FR 76400	December 27, 2005	Final Rule	Revised jurisdiction in marine waters and clarified jurisdiction relative to military lands.
71 FR 49997	August 24, 2006	Final Rule	Revised the jurisdiction of the subsistence program by adding submerged lands and waters in the area of Makhnati Island, near Sitka, AK. This allowed subsistence users to harvest marine resources in this area under seasons, harvest limits, and methods specified in the regulations.
72 FR 25688	May 7, 2007	Final Rule	Revised nonrural determinations.
75 FR 63088	October 14, 2010	Final Rule	Amended the regulations for accepting and addressing special action requests and the role of the Regional Advisory Councils in the process.
76 FR 56109	September 12, 2011	Final Rule	Revised the composition of the Federal Subsistence Board by expanding the Board by two public members who possess personal knowledge of and direct experience with subsistence uses in rural Alaska.
77 FR 12477	March 1, 2012	Final Rule	Extended the compliance date for the final rule (72 FR 25688) that revised nonrural determinations until the Secretarial program review is complete or in 5 years, whichever comes first.
80 FR 68249	November	Final Rule	Revised the nonrural determination process and

	4, 2015		allowed the Federal Subsistence Board to define which communities and areas are nonrural.
--	---------	--	---

A 1997 environmental assessment dealt with the expansion of Federal jurisdiction over fisheries and is available at the office listed under **FOR FURTHER INFORMATION CONTACT**. The Secretary of the Interior, with concurrence of the Secretary of Agriculture, determined that expansion of Federal jurisdiction does not constitute a major Federal action significantly affecting the human environment and, therefore, signed a Finding of No Significant Impact.

*Section 810 of ANILCA*

An ANILCA section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final section 810 analysis determination appeared in the April 6, 1992, ROD and concluded that the Program, under Alternative IV with an annual process for setting subsistence regulations, may have some local impacts on subsistence uses, but will not likely restrict subsistence uses significantly.

During the subsequent environmental assessment process for extending fisheries jurisdiction, an evaluation of the effects of this rule was conducted in accordance with section 810. That evaluation also supported the Secretaries' determination that the rule will not reach the "may significantly restrict" threshold that would require notice and hearings under ANILCA section 810(a).

### *Paperwork Reduction Act of 1995 (PRA)*

An agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. This rule does not contain any new collections of information that require OMB approval. OMB has reviewed and approved the collections of information associated with the subsistence regulations at 36 CFR part 242 and 50 CFR part 100, and assigned OMB Control Number 1018–0075, which expires June 30, 2019.

### *Regulatory Planning and Review (Executive Orders 12866 and 13563)*

Executive Order 12866 provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget will review all significant rules. OIRA has determined that this rule is not significant.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

### *Regulatory Flexibility Act*

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 et seq.) requires preparation of

flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. In general, the resources to be harvested under this rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, we estimate that two million pounds of meat are harvested by subsistence users annually and, if given an estimated dollar value of \$3.00 per pound, this amount would equate to about \$6 million in food value Statewide. Based upon the amounts and values cited above, the Departments certify that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

*Small Business Regulatory Enforcement Fairness Act*

Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

*Executive Order 12630*

Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this Program is limited by definition to certain public lands. Likewise, these regulations have no potential takings of private property implications as defined by Executive Order 12630.

*Unfunded Mandates Reform Act*

The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform

Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation of this rule is by Federal agencies, and there is no cost imposed on any State or local entities or tribal governments.

*Executive Order 12988*

The Secretaries have determined that these regulations meet the applicable standards provided in sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

*Executive Order 13132*

In accordance with Executive Order 13132, the rule does not have sufficient Federalism implications to warrant the preparation of a Federalism summary impact statement. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands unless it meets certain requirements.

*Executive Order 13175*

The Alaska National Interest Lands Conservation Act, Title VIII, does not provide specific rights to tribes for the subsistence taking of wildlife, fish, and shellfish. However, the Board provided Federally recognized Tribes and Alaska Native corporations opportunities to consult on this rule. Consultation with Alaska Native corporations are based on Public Law 108-199, div. H, Sec. 161, Jan. 23, 2004, 118 Stat. 452, as amended by Public Law 108-447, div. H, title V, Sec. 518, Dec. 8, 2004, 118 Stat. 3267, which provides that: "The Director of the Office of Management and Budget and all Federal agencies shall hereafter consult with Alaska Native corporations on the same basis as Indian tribes under Executive Order No. 13175."

The Secretaries, through the Board, provided a variety of opportunities for consultation: commenting on proposed changes to the existing rule; engaging in dialogue at the Council meetings; engaging in dialogue at the Board's meetings; and providing input in person, by mail, email, or phone at any time during the rulemaking process.

On January 10, 2017, the Board provided Federally recognized Tribes and Alaska Native Corporations a specific opportunity to consult on this rule prior to the start of its public regulatory meeting. Federally recognized Tribes and Alaska Native Corporations were notified by mail and telephone and were given the opportunity to attend in person or via teleconference.

#### *Executive Order 13211*

This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. However, this rule is not a significant regulatory action under E.O. 13211, affecting energy supply, distribution, or use, and no Statement of Energy Effects is required.

#### **Drafting Information**

Theo Matuskowitz drafted these regulations under the guidance of Eugene R. Peltola, Jr. of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Additional assistance was provided by

- Daniel Sharp, Alaska State Office, Bureau of Land Management;
- Mary McBurney, Alaska Regional Office, National Park Service;
- Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs;
- Carol Damberg, Alaska Regional Office, U.S. Fish and Wildlife Service; and

- Thomas Whitford, Alaska Regional Office, USDA Forest Service.

## **List of Subjects**

### 36 CFR Part 242

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

### 50 CFR Part 100

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

## **Regulation Promulgation**

For the reasons set out in the preamble, the Federal Subsistence Board amends title 36, part 242, and title 50, part 100, of the Code of Federal Regulations, as set forth below.

## **PART \_\_\_—SUBSISTENCE MANAGEMENT REGULATIONS FOR PUBLIC LANDS IN ALASKA**

1. The authority citation for both 36 CFR part 242 and 50 CFR part 100 continues to read as follows:

**Authority:** 16 U.S.C. 3, 472, 551, 668dd, 3101–3126; 18 U.S.C. 3551–3586; 43 U.S.C. 1733.

### **Subpart A—General Provisions**

2. In subpart A of 36 CFR part 242 and 50 CFR part 100, amend § \_\_\_.3 as follows:

a. In paragraph (a), remove the words “Title VIII or ANILCA” and add in their place the words “Title VIII of ANILCA”;

b. In paragraph (b)(1)(iii), remove the word “A” and add in its place the word “All”;

c. In paragraph (b)(2), remove “70 10’ ” and add in its place “70°10’ ” and remove “145 51’ ” and add in its place “145°51’ ”;

d. In paragraph (b)(3), remove the word “cape” and add in its place the word “Cape” and remove “161 46’ ” and add in its place “161°46’ ”; and

e. Revise paragraph (b)(5).

The revision reads as follows:

**§ \_\_.3 Applicability and scope.**

\* \* \* \* \*

(b) \* \* \*

(5) Southeastern Alaska, including the:

(i) Makhnati Island Area: Land and waters beginning at the southern point of Fruit Island, 57°02’35” north latitude, 135°21’07” west longitude as shown on United States Coast and Geodetic Survey Chart No. 8244, May 21, 1941; from the point of beginning, by metes and bounds; S. 58° W., 2,500 feet, to the southern point of Nepovorotni Rocks; S. 83° W., 5,600 feet, on a line passing through the southern point of a small island lying about 150 feet south of Makhnati Island; N. 6° W., 4,200 feet, on a line passing through the western point of a small island lying about 150 feet west of Makhnati Island, to the northwestern point of Signal Island; N. 24° E., 3,000 feet, to a point, 57°03’15” north latitude, 134°23’07” west longitude; East, 2,900

feet, to a point in course No. 45 in meanders of U.S. Survey No. 1496, on west side of Japonski Island; southeasterly, with the meanders of Japonski Island, U.S. Survey No. 1,496 to angle point No. 35, on the southwestern point of Japonski Island; S. 60° E., 3,300 feet, along the boundary line of Naval reservation described in Executive Order No. 8216, July 25, 1939, to the point of beginning, and that part of Sitka Bay lying south of Japonski Island and west of the main channel, but not including Aleutski Island as revoked in Public Land Order 925, October 27, 1953, described by metes and bounds as follows: Beginning at the southeast point of Japonski Island at angle point No. 7 of the meanders of U.S. Survey No. 1496; thence east approximately 12.00 chains to the center of the main channel; thence S. 45° E. along the main channel approximately 20.00 chains; thence S. 45° W. approximately 9.00 chains to the southeastern point of Aleutski Island; thence S. 79° W. approximately 40.00 chains to the southern point of Fruit Island; thence N. 60° W. approximately 50.00 chains to the southwestern point of Japonski Island at angle point No. 35 of U.S. Survey No. 1496; thence easterly with the meanders of Japonski Island to the point of beginning including Charcoal, Harbor, Alice, Love, and Fruit islands and a number of smaller unnamed islands.

(ii) Tongass National Forest:

(A) Beacon Point, Frederick Sound, and Kupreanof Island are shown on the U.S. Coast and Geodetic Survey Chart No. 8210—Sheet No. 16. The reference location is marked as 57 south, 79 east, CRM, SEC 8, U.S. Survey No. 1604. The point begins on the low-water line at N. 63° W., true and approximately 1,520 feet from Beacon Point beacon; thence due south true 1,520 feet; thence true East 1,800 feet, more or less to an intersection with a low-water line; thence following, is the low-water line round the point to point of the beginning (Approx. Long.

133° 00' W. Lat. 56° 56 ¼' N.).

(B) Bushy Island and Snow Passage are shown on the U.S. Coast and Geodetic Survey Chart, labeled No. 8160—Sheet No. 12. The reference location is marked as 64 south, 80 east, CRM, SEC. 31/32 on the map labeled, USS 1607. The point begins on a low-water line about ¼ nautical miles and southwesterly from the northwest point of the island, from which a left tangent to an island that is 300 yards in diameter and 100 yards offshore, bears the location—N. 60° W., true; thence S. 60° E., true and more or less 2,000 feet to an intersection with a low-water line on the easterly side of the island; thence forward along the winding of the low-water line northwesterly and southwesterly to the point of the beginning, including all adjacent rocks and reefs not covered at low water (Approx. Long. 132° 58'W. Lat. 56° 16 ½' N.).

(C) Cape Strait, Frederick Sound, and Kupreanof Island are shown on the U.S. Coast and Geodetic Survey Chart No. 8210—Sheet No. 16. The reference location is marked as 56 south, 77478 east, CRM, on the map labeled as USS 1011. It begins at a point on a low-water line that is westerly from the lighthouse and distant 1,520 feet in a direct line from the center of the concrete pier upon which the light tower is erected; thence South 45° E., true by 1,520 feet; thence east true by 1,520 feet, more or less to an intersection with the low-water line; thence north-westerly and westerly, following the windings of the low-water line to the point of beginning (Approx. Long. 133° 05' W. Lat. 57° 00'N.).

(D) Point Colpoys and Sumner Strait are shown on the U.S. Coast and Geodetic Survey Chart No. 8160—Prince of Wales Island—Sheet No. 12. The reference location is marked as 64 south, 78 east, CRM, SECs. 10, 11, 12 on the map labeled as USS 1634. Location is north of a true east-and-west line running across the point to 1,520 feet true south from the high-water line

at the northernmost extremity. Map includes all adjacent rocks and ledges not covered at low water and also includes two rocks awash about 1¼ nautical miles east and South and 75° East, respectively, from the aforementioned point (Approx. Long. 133° 12' W. Lat. 56° 20' N.).

(E) Vank Island and Stikine Strait are shown on the U.S. Coast and Geodetic Survey Chart No. 8160—Sheet No. 18. Located at 62 south, 82 east, CRM, SEC 34, on the map labeled as USS 1648. This part of the island is lying south of a true east-and-west line that is drawn across the island from low water to low water. Island is 760 feet due North from the center of the concrete pier upon which the structure for the light is erected (Approx. Long. 132° 35' W. Lat. 56° 27' N.).

(F) High Point, and Woronkofski Island, Alaska, are shown on the U.S. Coast and Geodetic Survey Chart No. 8160—Sheet No. 18. The location begins at a point on low water at the head of the first bight easterly of the point and about 1/8 nautical mile distant therefrom; thence south true 1,520 feet; thence west true 1,100 feet, more or less to an intersection with the low-water line; thence northerly and easterly, following the windings of the low-water line to point of the beginning (Approx. Long. 132° 33' W. Lat. 56° 24' N.).

(G) Key Reef and Clarence Strait are shown on the U.S. Coast and Geodetic Survey Chart No. 8160—Sheet No. 11. The reef lies 1¾ miles S. 80° E., true, from Bluff Island and becomes awash at extreme high water. Chart includes all adjacent ledges and rocks not covered at low water (Approx. Long. 132° 50' W. Lat. 56° 10' N.).

(H) Low Point and Zarembo Island, Alaska, are shown on U.S. Coast and Geodetic Survey Chart No. 8160—Sheet No. 22. The location begins at a point on a low-water line that is 760 feet in a direct line, easterly, from the center of Low Point Beacon. The position is located

on a point of shoreline about 1 mile easterly from Low Point; thence S. 35°, W true 760 feet; thence N. 800 feet and W. 760 feet, more or less, to an intersection with the low-water line to the point of beginning (Approx. Long. 132° 55 ½' W. Lat. 56° 27 ½' N.).

(I) McNamara Point and Zarembo Island, Alaska, are shown on U.S. Coast and Geodetic Survey Chart No. 8160—Sheet No. 25. Location begins at a point on a low-water line that is 1,520 feet in a direct line, northerly, from McNamara Point Beacon— a slatted tripod structure; thence true east 1,520 feet; thence true south, more or less, 2,500 feet to an intersection with the low-water line; thence northwesterly and northerly following the windings of the low-water line to the point of the beginning (Approx. Long. 133° 04' W. Lat. 56° 20' N.).

(J) Mountain Point and Wrangell Narrows, Alaska, are shown on the U.S. Coast and Geodetic Survey Chart No. 8170—Sheet No. 27. The location begins at a point on a low-water line southerly from the center of Mountain Point Beacon and distant there from 1,520 feet in a direct line; thence true west 1,520 feet; thence true north, more or less, 3,480 feet to an intersection with the low-water line; thence southeasterly and southerly following the windings of the low-water line to the point of the beginning (Approx. Long. 132° 57 ½' W. Lat. 56° 44' N.).

(K) Angle Point, Revillagigedo Channel, and Bold Island are shown on the U.S. Coast and Geodetic Survey Chart No. 8075—Sheet No. 3. The reference location is marked as 76 south, 92 east, CRM, USS 1603. The location begins at a point on a low-water line abreast of the lighthouse on Angle Point, the southwestern extremity of Bold Island; thence easterly along the low-water line to a point that is 3,040 feet in a straight line from the beginning point; thence N. 30° W. True 3,040 feet; thence true west to an intersection with the low-water line, 3,000 feet,

more or less; thence southeasterly along the low-water line to the point of the beginning (Approx. Long. 131° 26' W. Lat. 55° 14' N.).

(L) Cape Chacon, Dixon Entrance, and Prince of Wales Island are shown on the U.S Coast and Geodetic Survey Chart No. 8074—Sheet No. 29. The reference location is marked as 83 south, 89 and 90 east, CRM, USS 1608. The location begins at a point at the low-water mark on the shore line of Dixon Entrance from which the southern extremity of Cape Chacon bears south 64° true East and approximately  $\frac{3}{4}$  nautical miles; thence N. 45° true East and about 1 nautical mile, more or less, to an intersection with a low-water line on the shore of Clarence Strait; thence southerly, following the meanderings of the low-water line of the shore, to and around Cape Chacon, and continuing to the point of the beginning. Reference includes all adjacent islands, islets, rocks, and reefs that are not covered at the low-water line (Approx. Long 132° W. Lat. 54° 42' N.).

(M) Lewis Reef and Tongass Narrows are shown on the U.S Coast and Geodetic Survey Chart No. 8094—Sheet No. 71. The reference location is marked as 75 south, 90 east, CRM, SEC 9. The area point begins at the reef off of Lewis Point and partly bare at low water. This part of the reef is not covered at low water and lies on the northeast side of a true northwest-and-southeast line that is located 300 feet true southwest from the center of the concrete pier of Lewis Reef Light (Approx. Long. 131° 44  $\frac{1}{2}$ ' W. Lat. 55° 22' 25" N.).

(N) Lyman Point and Clarence Strait are shown on the U.S Coast and Geodetic Survey, Chart No. 8076—Sheet No. 8. The reference location is marked as 73 south, 86 east, CRM, SEC 13, on a map labeled as USS 2174 TRC. It begins at a point at the low-water mark. The aforementioned point is 300 feet in a direct line easterly from Lyman Point light; thence due

south 300 feet; thence due west to a low-water mark 400 feet, more or less; thence following the winding of the low-water mark to place of beginning (Approx. Long.  $132^{\circ} 18' W$ . Lat.  $35^{\circ} 35' N$ .).

(O) Narrow Point, Clarence Strait, and Prince of Wales Island are shown on the U.S. Coast and Geodetic Survey Chart No. 8100—Sheet No. 9. The reference location is marked as 70 south, 84 east, CRM, on a map labeled as USS 1628. The point begins at a point on a low-water line about 1 nautical mile southerly from Narrow Point Light, from which point a left tangent to a high-water line of an islet about 500 yards in diameter and about 300 yards off shore, bears south  $30^{\circ}$  true East; thence north  $30^{\circ} W$ ., true 7,600 feet; thence N.  $60^{\circ} E$ ., 3,200 feet, more or less to an intersection with a low-water line; thence southeasterly, southerly, and southwesterly, following the winding of the low-water line to the point of the beginning. The map includes all adjacent rocks not covered at low water (Approx. Long.  $132^{\circ} 28' W$ . Lat.  $55^{\circ} 47 \frac{1}{2}' N$ .).

(P) Niblack Point, Cleveland Peninsula, and Clarence Strait, Alaska, are shown on the U.S. coast and Geodetic Survey Chart No. 8102—Sheet No. 6, which is the same sheet used for Caamano Point. The location begins at a point on a low-water line from which Niblack Point Beacon, a tripod anchored to three concrete piers, bears southeasterly and is 1,520 feet in a direct line; thence true northeast 1,520 feet; thence true southeast 3,040 feet; thence true southwest at 600 feet, more or less, to an intersection with a low-water line; thence northwesterly following the windings of the low-water line to the point of the beginning (Approx. Long.  $132^{\circ} 07' W$ . Lat.  $55^{\circ} 33' N$ .).

(Q) Rosa Reef and Tongass Narrows are shown on the U.S. Coast and Geodetic Survey

Chart No. 8094—Sheet No. 71. The reference location is marked as 74 south, 90 east, CRM, SEC 31. That part of the reef is not covered at low water and lies east of a true north-and-south line, located 600 feet true west from the center of the concrete pier of Rosa Reef Light. The reef is covered at high water (Approx. Long.  $131^{\circ} 48' W$ . Lat.  $55^{\circ} 24' 15'' N$ .).

(R) Ship Island and Clarence Strait are shown on the U.S. Coast and Geodetic Survey Chart No. 8100—Sheet No. 9. The reference location is marked as south, 8 east, CRM, SEC 27. The point begins as a small island on the northwesterly side of the Clarence Strait, about 10 nautical miles northwesterly from Caamano Point and  $\frac{1}{4}$  mile off the shore of Cleveland Peninsula. The sheet includes all adjacent islets and rocks not connected to the main shore and not covered at low water (Approx. Long.  $132^{\circ} 12' W$ . Lat.  $55^{\circ} 36' N$ .).

(S) Spire Island Reef and Revillagigedo Channel are shown on the U.S. Coast and Geodetic Survey Chart No. 8075—Sheet No. 3. The reference location is marked as 76 south, 92 east, CRM, SEC 19. The detached reef, covered at high water and partly bare at low water, is located northeast of Spire Island. Spire Island Light is located on the reef and consists of small houses and lanterns surmounting a concrete pier. See chart for “Angle Pt.” (Approx. Long  $131^{\circ} 30' W$ . Lat.  $55^{\circ} 16' N$ .).

(T) Surprise Point and Nakat Inlet are shown on the U.S. Coast and Geodetic Survey Chart No. 8051—Sheet No. 1. The reference location is marked as 80 south, 89 east, CRM. This point lies north of a true east-and-west line. The true east-and-west line lies 3,040 feet true south from the northernmost extremity of the point together with adjacent rocks and islets (Approx. Long.  $130^{\circ} 44' W$ . Lat.  $54^{\circ} 49' N$ .).

(U) Caamano Point, Cleveland Peninsula, and Clarence Strait, Alaska, are shown on the

U.S. Coast and Geodetic Survey Chart No. 8102—Sheet No. 6. Location consists of everything apart of the extreme south end of the Cleveland Peninsula lying on a south side of a true east-and-west line that is drawn across the point at a distance of 800 feet true north from the southernmost point of the low-water line. This includes off-lying rocks and islets that are not covered at low water (Approx. Long.  $131^{\circ} 59' W$ . Lat.  $55^{\circ} 30' N$ .).

(V) Meyers Chuck and Clarence Strait, Alaska, are shown on the U.S. and Geodetic Survey Chart No. 8124—Sheet No. 26. The small island is about 150 yards in diameter and located about 200 yards northwest of Meyers Island (Approx. Long.  $132^{\circ} 16' W$ . Lat.  $55^{\circ} 44 \frac{1}{2}' N$ .).

(W) Round Island and Cordova Bay, Alaska, are shown on the U.S coast and Geodetic Survey Chart No. 8145—Sheet No. 36. The Southwestern Island of the group is about 700 yards long, including off-lying rocks and reefs that are not covered at low water (Approx. Long.  $132^{\circ} 30 \frac{1}{2}' W$ . Lat.  $54^{\circ} 46 \frac{1}{2}' N$ .).

(X) Mary Island begins at a point that is placed at a low-water mark. The aforementioned point is southward 500 feet from a crosscut on the side of a large rock on the second point below Point Winslow and Mary Island; thence due west  $\frac{3}{4}$  mile, statute; thence due north to a low-water mark; thence following the winding of the low water to the place of the beginning (Approx. Long.  $131^{\circ} 11' 00'' W$ . Lat.  $55^{\circ} 05' 55'' N$ .).

(Y) Tree Point starts a point of a low-water mark. The aforementioned point is southerly  $\frac{1}{2}$  mile from extreme westerly point of a low-water mark on Tree Point, on the Alaska Mainland; thence due true east,  $\frac{3}{4}$  mile; thence due north 1 mile; thence due west to a low-water mark; thence following the winding of the low-water mark to the place of the beginning (Approx.

Long. 130° 57' 44" W. Lat. 54° 48' 27" N.).
