Policy on Technical Surveillance Countermeasures

AGENCY: Under Secretary of Defense for Intelligence, DoD.

ACTION: Final rule.

SUMMARY: This final rule removes DoD’s regulation concerning the Technical Surveillance Countermeasures (TSCM) Program. DoD originally determined that rulemaking was required based on the portion of this part that speaks to providing assistance to non-DoD agencies. However, this part places no burden on other agencies. The description of the relationship with other agencies is in accordance with federal law, and this part is unnecessary. Therefore, this part can be removed from the CFR.

DATES: This rule is effective on [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

FOR FURTHER INFORMATION CONTACT: Richard Davison, 703-697-4850.

SUPPLEMENTARY INFORMATION: It has been determined that publication of this CFR part removal for public comment is impracticable, unnecessary, and contrary to public interest since it is based on removing DoD internal policies and procedures that are publically available on the Department’s issuance Web site.
This part contains internal DoD requirements and thus, does not fiscally impact parties outside of DoD. DoD’s internal DoD Instruction 5240.05, "Technical Surveillance Countermeasures (TSCM)," remains in effect exclusively for the management of TSCM in DoD and is available at
This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review,” therefore, E.O. 13771, “Reducing Regulation and Controlling Regulatory Costs” does not apply.
