DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10673]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS’ intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (the PRA), federal agencies are required to publish notice in the Federal Register concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by [Insert date 60 days after the date of display at the Federal Register].

ADDRESSES: When commenting, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be submitted in any one of the following ways:
1. **Electronically.** You may send your comments electronically to http://www.regulations.gov. Follow the instructions for "Comment or Submission" or "More Search Options" to find the information collection document(s) that are accepting comments.

2. **By regular mail.** You may mail written comments to the following address:
   
   CMS, Office of Strategic Operations and Regulatory Affairs
   
   Division of Regulations Development
   
   Attention: Document Identifier/OMB Control Number ________
   
   Room C4-26-05
   
   7500 Security Boulevard
   
   Baltimore, Maryland  21244-1850.

   To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, you may make your request using one of following:

   2. E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov.

   3. Call the Reports Clearance Office at (410) 786-1326.

FOR FURTHER INFORMATION CONTACT: William Parham at (410) 786-4669.

SUPPLEMENTARY INFORMATION:

Contents

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection’s supporting statement and associated materials (see ADDRESSES).
CMS-10673 Medicare Advantage Qualifying Payment Arrangement Incentive (MAQI) Demonstration

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. **Type of Information Collection Request:** New Collection (Request for a new OMB control number); **Title of Information Collection:** Medicare Advantage Qualifying Payment Arrangement Incentive (MAQI) Demonstration; **Use:** The Centers for Medicare & Medicaid Services (CMS) may test a demonstration, under Section 402 of the Social Security Amendments of 1968 (as amended), entitled the Medicare Advantage Qualifying Payment Arrangement Incentive (MAQI) Demonstration (“the Demonstration”). If it goes forward, the MAQI demonstration could test whether exempting, through the use of waiver authority, clinicians who participate to a sufficient degree in certain payment arrangements with Medicare Advantage Organizations (MAOs) (combined with participation, if any, in Advanced Alternative Payment Models (APMs) with Medicare Fee-for-Service (FFS)) from the Merit-based Incentive Payment System (MIPS) reporting requirements and payment adjustment will increase or maintain
participation in payment arrangements with MAOs similar to Advanced APMs and change the manner in which clinicians deliver care.

Clinicians may currently participate in one of two paths of the Quality Payment Program (QPP): 1) MIPS, which adjusts Medicare payments based on combined performance on measures of quality, cost, improvement activities, and advancing care information, or 2) Advanced Alternative Payment Models with Medicare (Advanced APMs), under which eligible clinicians may earn an incentive payment for sufficient participation in certain payment arrangements with Medicare fee-for-service (FFS) and other payers, and starting in the 2019 performance period, with other payers such as Medicare Advantage, commercial payers, and Medicaid managed care. To participate in the Advanced APM path of QPP for a given year, eligible clinicians must meet the criteria of Qualifying APM Participants (QPs); in addition to earning an APM incentive payment, QPs are excluded from the MIPS reporting requirements and payment adjustment.

An eligible clinician that does not meet the criteria to be a QP for a given year will be subject to MIPS for that year unless the clinician meets certain other MIPS exclusion criteria, such as being newly enrolled in Medicare or meeting the low volume threshold for Medicare FFS patients. The MAQI Demonstration could allow participating clinicians to have the opportunity to be exempt from MIPS reporting and payment consequences for a given year if they participate to a sufficient degree in certain Qualifying Payment Arrangements with MAOs (and Advanced APMs with Medicare FFS) during the performance period for that year, without requiring them to be QPs or otherwise meet the MIPS exclusion criteria of QPP. Under a possible Demonstration, clinicians might not be required to have a minimum amount of participation in an Advanced APM with Medicare FFS in order to be exempt from MIPS reporting requirements and payment adjustments for a year, but if they did have participation in Advanced APMs with
Medicare FFS, that participation could also be counted towards the thresholds that trigger the waiver from MIPS reporting and payment consequences. In addition, the Demonstration could permit consideration of participation in “Qualifying Payment Arrangements” with Medicare Advantage plans that meet the criteria to be Other Payer Advanced APMs a year before the All-Payer Combination Option is available.

In the Calendar Year 2018 Quality Payment Program Final Rule, CMS noted its intention “to develop a demonstration project to test the effects of expanding incentives for eligible clinicians to participate in innovative alternative payment arrangements under Medicare Advantage that qualify as Advanced APMs, by allowing credit for participation in such Medicare Advantage arrangements prior to 2019 and incentivizing participation in such arrangements in 2018 through 2024.” (92 FR 53865).

The first performance period for the Demonstration is tentatively planned for 2018 and the Demonstration would last up to five years. Clinicians who meet the definition of MIPS eligible clinician under QPP as defined under 42 CFR § 414.1305 would be eligible to participate in the MAQI Demonstration. Currently, MIPS eligible clinicians include physicians (including doctors of medicine, doctors of osteopathy, osteopathic practitioners, doctors of dental surgery, doctors of dental medicine, doctors of podiatric medicine, doctors of optometry, and chiropractors), physician assistants, nurse practitioners, clinical nurse specialists, and certified registered nurse anesthetists. If the definition of MIPS eligible clinician changes under future rulemaking, the Demonstration would use the updated definition to define Demonstration eligibility.

Participation could last the duration of the Demonstration, unless participation is voluntarily or involuntarily terminated under the terms and conditions of the Demonstration.
Participants would have the opportunity to submit the required documentation and be evaluated for MIPS waivers through the Demonstration each year.

Should this demonstration move forward, and in order to conduct an evaluation and effectively implement the MAQI Demonstration, CMS would need to collect information from Demonstration participants on a) payment arrangements with MAOs and b) Medicare Advantage (MA) payments and patient counts. CMS would require a new collection of this information as this information is not already available through other sources and/or has not been previously approved for use under the MAQI Demonstration. The information collected in these forms would allow CMS to evaluate whether the payment arrangement that clinicians have with MAOs meet the Qualifying Payment Arrangement criteria, and determine whether a clinician’s MAO and FFS APM patient population or payments meet demonstration thresholds. Both of these areas are also requirements for review and data collection under QPP (i.e. the Eligible Clinician-Initiated Other Payer Advanced APM Determination form and All-Payer QP Submission form), and therefore similar to forms have been prepared and reviewed under the QPP.

Given these similarities in forms, burden estimates for the MAQI Demonstration PRA package were derived from burden analyses and formulation done in conjunction with the QPP forms; more specifically the estimated burden associated with the submission of payment arrangement information for Other Payer Advanced APM Determinations: Eligible Clinician-Initiated Process, and the estimated burden associated with the submission of data for All-Payer QP determinations. CMS estimates the total hour burden per respondent for the MAQI demonstration to be 15 hours, to match the hours listed in the equivalent QPP forms. Full detail of how these estimates were derived can be found in the forthcoming Calendar Year 2019 Proposed QPP rule.
If Demonstration participants submitted information, but did not meet these conditions of the Demonstration, their participation in the Demonstration would not be terminated, but they would not receive the waivers from MIPS reporting requirements and payment adjustments. Therefore, unless they become QPs or are excluded from MIPS for other reasons, the participating clinicians would be subject to MIPS and would face the MIPS payment adjustments for the applicable year. We are requesting approval of 2 information collections associated with the MAQI Demonstration: a) a Qualifying Payment Arrangement Submission Form and b) a Threshold Data Submission Form. Form Number: CMS-10673 (OMB control number: 0938-NEW); Frequency: Annually; Affected Public: Private sector - Business or other for-profit and Not-for-profit institutions; Number of Respondents: 100,000; Total Annual Responses: 100,000; Total Annual Hours: 1,500,000. (For policy questions regarding this collection contact John Amoh at john.amoh@cms.hhs.gov.)
