

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Highly Migratory Species Dealer, Importer, and Exporter Reporting Family of Forms.

*OMB Control Number:* 0648-0040.

*Form Number(s):* None.

*Type of Request:* Regular (revision and extension of a currently approved information collection).

*Number of Respondents:* 10,391.

*Average Hours Per Response:* 15 minutes for catch document/statistical document/re-export certificate validation by government official; 120 minutes for authorization of non-governmental catch document/statistical document/re-export certificate validation; 2 minutes for daily Atlantic bluefin tuna landing reports; 3 minutes for daily Atlantic bluefin tuna landing reports from pelagic longline and purse seine vessels; 1 minute for Atlantic bluefin tuna tagging;

15 minutes for biweekly Atlantic bluefin tuna dealer landing reports; 15 minutes for HMS international trade biweekly reports; 15 minutes for weekly electronic HMS dealer landing reports (*e-dealer*); 5 minutes for negative weekly electronic HMS dealer landing reports (*e-dealer*); 15 minutes for voluntary fishing vessel and catch forms; 2 minutes for provision of HMS dealer e-mail address.

*Burden Hours:* 18,552.

*Needs and Uses:* This request is for revision and extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. § 1801 *et seq.*), the National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. NMFS must also promulgate regulations, as necessary and appropriate, to carry out obligations the United States (U.S.) undertakes internationally regarding tuna management through the Atlantic Tunas Convention Act (ATCA, 16 U.S.C. § 971 *et seq.*).

This collection serves as a family of forms for Atlantic highly migratory species (HMS) dealer reporting, including purchases of HMS from domestic fishermen, and the import, export, and/or re-export of HMS, including federally managed tunas, sharks, and swordfish.

Transactions covered under this collection include purchases of Atlantic HMS from domestic fishermen; and the import/export of all bluefin tuna, frozen bigeye tuna, southern bluefin tuna or swordfish under the HMS International Trade Program, regardless of geographic area of origin. This information is used to monitor the harvest of domestic fisheries, and/or track

international trade of internationally managed species.

The domestic dealer reporting covered by this collection includes weekly electronic landing reports and negative reports (i.e., reports of no activity) of Atlantic swordfish, sharks, bigeye tuna, albacore, yellowfin, and skipjack tunas (collectively referred to as BAYS tunas), and biweekly and electronic daily landing reports for bluefin tuna, including tagging of individual fish. Because of the recent development of an individual bluefin quota (IBQ) management system (RIN 0648-BC09), electronic entry of IBQ-related landing data is required for Atlantic bluefin tuna purchased from Longline and Purse seine category vessels. NMFS intends to consider integrating the electronic dealer reporting for bluefin tuna and electronic reporting for the IBQ system; however, at this time, dealers must submit limited bluefin tuna landings data to both NMFS systems for purse seine and pelagic longline vessels.

International trade tracking programs are required by both the International Commission for the Conservation of Atlantic Tunas (ICCAT) and the Inter-American Tropical Tuna Commission (IATTC) to account for all international trade of covered species. The U.S. is a member of ICCAT and IATTC and required by ATCA and the Tunas Convention Act (16 U.S.C. § 951 *et. seq.*, consecutively) to promulgate regulations as necessary and appropriate to implement ICCAT and IATTC recommendations. These programs require that a statistical document or catch document accompany each export from and import to a member nation, and that a re-export certificate accompany each re-export. The international trade reporting requirements covered by this collection include implementation of catch document, statistical document, and re-export certificate trade tracking programs for bluefin tuna, frozen bigeye tuna,

and swordfish. An electronic catch document program for bluefin tuna (EBCD) was recommended by ICCAT and implemented by the United States in 2016 (0648-BF17). U.S. regulations implementing ICCAT statistical document and catch document programs require statistical documents and catch documents for international transactions of the covered species from all ocean areas, so Pacific imports and exports must also be accompanied by statistical documents and catch documents. Since there are statistical document programs in place under other international conventions (e.g., the Indian Ocean Tuna Commission), a statistical document or catch document from another program may be used to satisfy the statistical document requirement for imports into the United States. *Revision: These statistical and catch documents are now covered under OMB Control No. 0648-0732, but their validation is still part of this information collection.*

Dealers who internationally trade Southern bluefin tuna are required to participate in a trade tracking program to ensure that imported Atlantic and Pacific bluefin tuna will not be intentionally mislabeled as “southern bluefin” to circumvent reporting requirements. This action is authorized under ATCA, which provides for the promulgation of regulations as may be necessary and appropriate to carry out ICCAT recommendations.

In addition to statistical document, catch document, and re-export certificate requirements, this collection includes biweekly reports to complement trade tracking statistical documents by summarizing statistical document data and collecting additional economic information.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* Weekly and biweekly.

*Respondent's Obligation:* Mandatory.

This information collection request may be viewed at [reginfo.gov](http://reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202) 395-5806.

Dated: July 8, 2018.
