**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR Part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR Parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant proposes to receive, import, and export specimens from marine mammals, sea turtles, and protected sharks under NMFS' jurisdiction to: (1) determine

concentrations of metals and other environmental contaminants in these species; and (2) establish a resource of marine mammal, sea turtle, and protected shark cell lines for use as model systems in the investigation of various factors related to the health of these protected species and as comparative tools to human studies (toxicity of metals, virology, etc.). Import and export authority is requested worldwide and the number of animals requested per species is outlined in the take tables in the application.

No take of live wild animals would be involved; tissues would be received from the following sources: marine mammals or sharks stranded dead or that died during rehabilitation; captive marine mammals or sharks held for public display or research; marine mammals and sharks taken in a legal fishery; marine mammals, sea turtles, or sharks sampled by other permitted researchers; and marine mammals or sharks killed during legal subsistence hunts. Once the cell lines are established, they may be transferred to other researchers for scientific research, including export to world-wide locations. The cell lines would not be sold for profit or used for commercial purposes. The requested duration of the permit is 5 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the *Federal Register*, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.
