Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Application and Reports for Scientific Research and Enhancement Permits under the Endangered Species Act.

OMB Control Number: 0648-0402.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 115.

Average Hours Per Response: Permit applications, 12 hours; permit modification requests 6 hours; annual or final reports, 2 hours.

Burden Hours: 840.

Needs and Uses: This request is for extension of a currently approved information collection

The Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 et seq.) imposed prohibitions against the taking of endangered species. Section 10 of the ESA allows permits authorizing the taking of endangered species for research/enhancement purposes. The corresponding regulations

established procedures for persons to apply for such permits. In addition, the regulations set forth specific reporting requirements for such permit holders. The regulations contain two sets of information collections: (1) applications for research/enhancement permits, and (2) reporting requirements for permits issued.

The required information is used to evaluate the impacts of the proposed activity on endangered species, to make the determinations required by the ESA prior to issuing a permit, and to establish appropriate permit conditions. To issue permits under ESA Section 10(a)(1)(A), the National Marine Fisheries Service (NMFS) must determine that (1) such exceptions were applied for in good faith, (2) if granted and exercised, will not operate to the disadvantage of such endangered species, and (3) will be consistent with the purposes and policy set forth in Section 2 of the ESA.

The currently approved application and reporting requirements apply to Pacific marine and anadromous fish species, as requirements regarding other species are being addressed in a separate information collection.

p *Affected Public:*

Frequency: Annually.

Respondent's Obligation: Required to obtain or retain a benefit.
