Use of Listserv for Decommissioning and Uranium Recovery Site Correspondence

AGENCY: Nuclear Regulatory Commission.

ACTION: Implementation of electronic distribution of decommissioning and uranium recovery site correspondence.

This change does not affect the availability of official agency records in the NRC's Agencywide Documents Access and Management System (ADAMS).

SUPPLEMENTARY INFORMATION:

The electronic distribution process was first utilized by the Office of Nuclear Reactor Regulation in 2008 for operating reactor correspondence. Currently, DUWP uses Listserv to distribute correspondence for reactors in decommissioning that have transitioned to NMSS since 2013. Public feedback regarding this process has been positive. This process distributes correspondence documents to the addressees and members of the Listserv at the same time. Distribution of documents containing safeguards, proprietary or security-related information, or other information that is withheld from public disclosure will not be affected by this initiative.

This initiative will be implemented on October 1, 2018. Individuals may subscribe to receive licensing correspondence for decommissioning and uranium recovery through the following steps: (1) go to the NRC's public Web site and select "Public Meetings & Involvement," (2) select "Subscribe to e-mail Updates," (3) select "Lyris Subscription Services" and click on "Decommissioning and Uranium Recovery Correspondence", (4) enter the e-mail address through which you want to receive the NRC Listserv e-mails, (5) check the box to select at least one site, and (6) click on "Subscribe." The NRC will

continue to send duplicate hard copies of correspondence through November 1, 2018 to allow individuals adequate time to subscribe.

After you are subscribed to an NRC Listserv, you will receive an e-mail from the NRC with instructions for managing your NRC Listserv subscription, including how to change your e-mail address and how to unsubscribe.

Dated at Rockville, Maryland this 25th day of September 2018.

For the Nuclear Regulatory Commission.

Division of Decommissioning, Uranium
Recovery, and Waste Programs,
