50 CFR Part 622

[Docket No. 130312235-3658-02]

RIN 0648-XG569

**Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic;
Snapper-Grouper Resources of the South Atlantic; Vermilion
Snapper Trip Limit Reduction**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; trip limit reduction.

SUMMARY: NMFS reduces the commercial trip limit for vermilion snapper in or from the exclusive economic zone (EEZ) of the South Atlantic to 500 lb (227 kg), gutted weight, 555 lb (252 kg), round weight. This trip limit reduction is necessary to protect the South Atlantic vermilion snapper resource.

DATES: This rule is effective 12:01 a.m., local time, October 26, 2018, until 12:01 a.m., local time, January 1, 2019.

FOR FURTHER INFORMATION CONTACT: Mary Vara, NMFS Southeast Regional Office, telephone: 727-824-5305, email: mary.vara@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery in the South Atlantic includes vermilion snapper and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The South Atlantic Fishery Management Council prepared the FMP. The FMP is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The commercial ACL (commercial quota) for vermilion snapper in the South Atlantic is divided into two 6-month time periods, January through June, and July through December. For the July 1 through December 31, 2018, fishing season, the commercial quota is 388,703 lb (176,313 kg), gutted weight, 431,460 lb (195,707 kg), round weight (50 CFR 622.190(a)(4)(ii)(D)). As specified in 50 CFR 622.190(a)(4)(iii), any unused portion of the commercial quota from the January through June 2018, fishing season would be added to the commercial quota for the July through December 2018, fishing season. The unused portion of the quota that was not harvested during the January through June fishing season, totaled 32,534 lb (14,757 kg) gutted weight, 36,113 lb (16,381 kg), round weight, and was added to the July through December

2018 quota. This resulted in a 2018 adjusted commercial quota, for the July through December fishing season of 421,237 lb (191,070 kg), gutted weight, 467,573 lb (212,088 kg), round weight.

Under 50 CFR 622.191(a)(6)(ii), NMFS is required to reduce the commercial trip limit for vermilion snapper from 1,000 lb (454 kg), gutted weight, 1,110 lb (503 kg), round weight, when 75 percent of the fishing season commercial quota is reached or projected to be reached, by filing a notification to that effect with the Office of the Federal Register. The reduced commercial trip limit is 500 lb (227 kg), gutted weight, 555 lb (252 kg), round weight. Based on current information, NMFS has determined that 75 percent of the available commercial quota for the July through December 2018 fishing season for vermilion snapper will be reached by October 26, 2018. Accordingly, NMFS is reducing the commercial trip limit for vermilion snapper to 500 lb (227 kg), gutted weight, 555 lb (252 kg), round weight, in or from the South Atlantic EEZ at 12:01 a.m., local time, on October 26, 2018. This reduced commercial trip limit will remain in effect until the start of the next commercial fishing season on January 1, 2019, or until the commercial quota is reached and the commercial sector closes, whichever occurs

first.

Classification

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of South Atlantic vermilion snapper and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.191(a)(6)(ii) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA) finds that the need to immediately implement this commercial trip limit reduction constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), because prior notice and opportunity for public comment on this temporary rule is unnecessary and contrary to the public interest. Such procedures are unnecessary, because the rule establishing the trip limit has already been subject

to notice and comment, and all that remains is to notify the public of the trip limit reduction. Prior notice and opportunity for public comment is contrary to the public interest, because any delay in reducing the commercial trip limit could result in the commercial quota being exceeded. There is a need to immediately implement this action to protect the vermilion snapper resource, since the capacity of the fishing fleet allows for rapid harvest of the commercial quota. Prior notice and opportunity for public comment on this action would require time and increase the probability that the commercial sector could exceed its quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 19, 2018.

Karen H. Abrams

Acting Director,

Office of Sustainable Fisheries,

National Marine Fisheries Service.
